Concluding the study

Noventa Vicentina, 2020/08/18

The first part of this research was published by my father, after many years of study, in his publication: J. S. Bach - Opere per Liuto [Ernesto Cipriani, Stamperia Musicale E. Cipriani - 1977]. In this study he presented an instrument on which to perform the solo Lute music of J. S. Bach specifically: a Lute set to a particular tuning, equipped with a shifting capotasto to be moved at every key change, and with an additional mechanic for the bass courses. Said mechanic was never actually defined. A historical study on the Lauten Werck matter was also presented within the work, as well as the tablatures of the entire Bachian corpus for solo lute in accordance with the assumed instrument and its tuning.

Givin the opportunity of performing in a practical way and in original key all of Bach's music for Lute made it worthy of its own publication, in his opinion, but that wouldn't interrupt his research: he also intended to define the mechanics for the hypothesized instrument, and to identify the motives that had prompted the modification - or straight-up invention - of a particular Lute, in which Bach had also participated, at the very least by dedicating a number of relevant music to it. Thus, after the 1977 edition, he proceeded to work in this pursuit, but could not ultimately complete his research.

Around year 2000, I decided to take up his study again, to see if the missing answers could be found. As time went on, I began to consult more and more with my brother Giuseppe, who is well acquainted with the Lauten Werck matter, and who solved the technical-mechanical issues in order to give an identity to the instrument, until a working model was built.

Simone Cipriani

This work, the result of research that has lasted the span of two generations, was born with the intention of paying homage to Bach, and in our opinion it brings substantial clarity to the Lauten Werck matter, proposing a solution with exhaustive answers to all the problems known to us about Bach's lute music, as well as a rational collocation of the historical information about the instrument.

Of course, it is also a dedication to our father, in the hopes that his restless soul of a researcher will finally find peace.

Simone Cipriani

Giuseppe Cipriani

THE LAUTEN WERK MATTER

«DIE ÜBERSCHICKTEN STÜCKE ZUM CLAVIER VON BACH, UND VON WEYRAUCH ZUR LAUTE, SIND EBEN SO SCHWER ALS SIE SCHÖN SIND. WENN ICH SIE ZEHNMAL GESPIELET HABE, SCHEINE ICH MIR IMMER NOCH EINE ANFÄNGERIN DARINNEN.»

«THE BACH KEYBOARD PIECES I HAVE RECEIVED, AND THOSE BY WEYRAUCH FOR LUTE, ARE AS DIFFICULT AS THEY ARE BEAUTIFUL: ALTHOUGH I HAVE PERFORMED THEM A DOZEN TIMES, I STILL FEEL LIKE A BEGINNER.»

Madame Louise Adelgunde Victorie Kulmus,

Danzig, May 30, 1732

1. HISTORICAL DATA

The history of J. S. Bach's works for Lute is rather controversial.

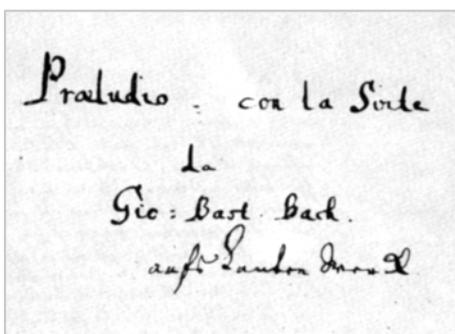

All the works for Lute/Lauten Werck, apart from the tablature transcriptions of the time, were written in modern notation. For a long time it was assumed that these works were not intended for the Lute, either because they have some parts that simply cannot be performed on a traditional instrument or because even the parts that can be performed are often excruciatingly difficult. Today these works are nevertheless performed on the traditional Lute, despite the inconsistencies and the not uncommon passages of actual performance impossibility, usually by transporting them in keys different from the original, octavating or skipping some basses, not playing or modifying some embellishments, and omitting some tenuto sounds.

1.1 Frontispieces of the works and performance on the traditional instrument

• Suite in E minor BWV996 (~1708-17)

– On the title page: "*Preludio con la Suite da Gio: Bast. Bach. auf Lauten Werck*".

The problems of performing on a traditional instrument are especially evident in this Suite in E minor BWV996, which has come to us in the modern notation copy made by Johann Gottfried Walther (1684 -1748), Bach's cousin and friend. In this suite it is impossible not only to respect the tenuto as written, but also to perform all the notes therein, even if one were to transpose the

The frontispiece of the suite BWV996, in the handwriting of Johann Gottfried Walther (1684 -1748), which explicitly states:

Preludio con la Suite

da

Gio: Bast. Bach.

auf Lauten Werck

music and change instrument after each piece. For this reason, and because of the inscription "auf Lauten Werck" (two detached words) placed on the title page by J. G. Walther, it is customary to consider the Lautenclavicymbel as the putative instrument for this work. Indeed, the Lautenclavicymbel was sometimes referred to as the Lautenwerk (or Lautenwerck).

- **Partita in E major BWV1006a (~1740)**

– *On the title page: "Pieces pour le Luth".*

The suite in E major BWV1006a has come to us on an autograph manuscript in modern notation; it presents fewer but equally important problems, and is usually placed side by side with the previous one as an attribution to the Lautenclavicymbel, especially since this solution was proposed by musicologist R. de Candé (1923-2013).

- **Partita in C minor BWV997 (~1737-41)**

– *Five manuscripts in non-autograph modern notation: "Praludum e Fuga. Per il Clavicembalo. dal Sig. Joh. Seb. Bach" and the like; in the known tablatures of this period, about twenty of them, it is usually referred to as "Partita al Liuto Composta dal Sig_re Bach".*

A separate note should be made for this Partita, which, in the versions written in modern notation that have come to us, presents a cantus that is set an octave above what can be performed on the Lute; we consider these copies to be the most accurate, since they are more complete, and we lower the cantus by an octave, in accordance with the tablatures of that time, which appear to be simplified versions.

- **G minor BWV995 (~1727-31)**

Autograph in modern notation: "*Pieces pour la Louth à Monsieur Schouste*"; other versions: "*Pieces pour le Louth*"; "*Le Lut*" and similar in tablatures of the time. An additional critical point of this work is that it reaches down to the G_0 , a note that is historically unreferenced in the sense that it requires a 14-order instrument, and no baroque Lute has ever reached such a range: only Archlutes and Theorbos, as accompanying instruments, could sometimes have such a large or even larger amount of courses, but still single-string.

- **Preludio, Fuga, Allegro in E flat major BWV998 (~1740-45)**

– *Autograph in modern notation: "Prelude pour la Luth ó Cembal par J. S. Bach".*

The two solo works BWV995 and BWV998 present some minor problems in their performance.

- **Preludio in C flat BWV999 (~1720)**

– *The wording on the manuscript by the hand of J. Peter Kellner (1705-1772) is: "Prelude in Cmoll pour La Lute di Johann Sebastian Bach".*

This "*Preludietto*" in C minor, a staccato piece, can also be performed on the traditional *D minor Lute*.

• Fuga in G flat BWV1000 (~1725)

"*Fuga del Si.re Bach*". This work, which has come to us in tablature, in our opinion simply represents a transcription of the period: a separate piece, without altered basses, which is balanced around the *D minor Lute*.

• Other works in which the lute (not solo) is present:

Matthaus Passion BWV244.1

Recitative No. 56 and the following Aria No. 57 in D minor «Komm, Süßes Kreuz».

This early version (1727) features a solo Lute at the recitative and aria No. 56-57, replaced in the better-known later versions by the Viola da Gamba.

Johannes Passion BWV245

Arioso n° 19 «*Betrachte, meine Seel*!» della 2^a parte, from Part 2, written for two Viole d'amore, Bass, Lute, and continuo with *Bassono grosso* (Contrabassoon).

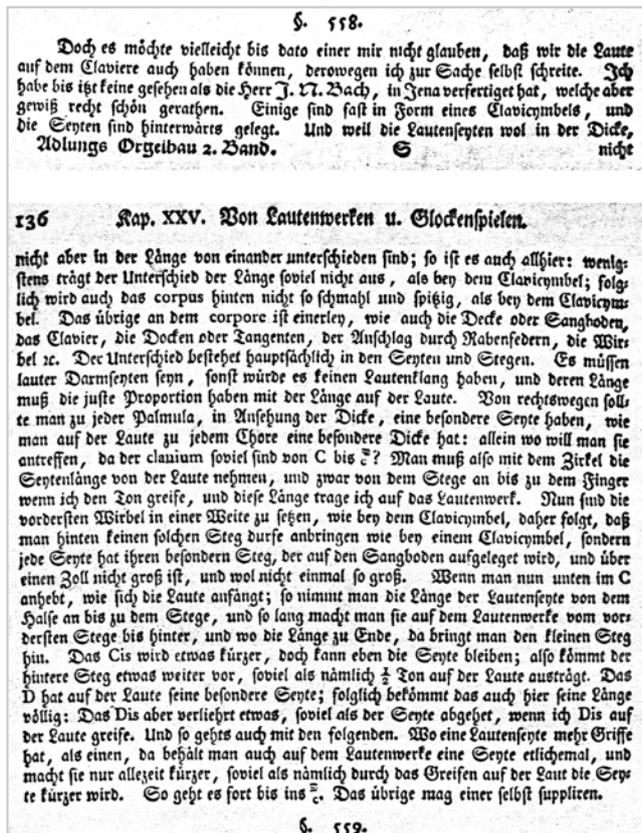

Trauerode BWV198

The two lutes are present in almost all the pieces, as soloists or as accompanying instruments to the basso continuo.

1.2 The Lautenclavicymbel

We know the construction characteristics of the Lautenclavicymbel, although no original instrument has come down to us. The earliest instrument we know of dates from 1511, built by the theorist Sebastian Virdung (~1465-?). Other makers followed over the centuries until the mid-18th century. It is an instrument with mechanics similar to those of a harpsichord, but with leather pens. In the eighteenth-century version it usually had two registers, always made of gut strings like those of the Lute, but it could also feature a third register made of brass strings. In practice it was a keyboard that imitated the sound of the Lute, or that of a Theorbo, with louder sound; to achieve this effect, the mechanics, including the fastenings, were exclusively made of wood, and some makers also equipped it with a bellied case like that of the Lute. In Bach's time additional mechanics were sometimes added in order to vary the timbre of the sounds.

Alongside and on the following page: the work *Musica mechanica Organoedi* (~1723-27) by J. Adlung (1699-1762), published posthumously by J. F. Agricola (1720-1774) in 1768, under the heading *Lautenwerk*.

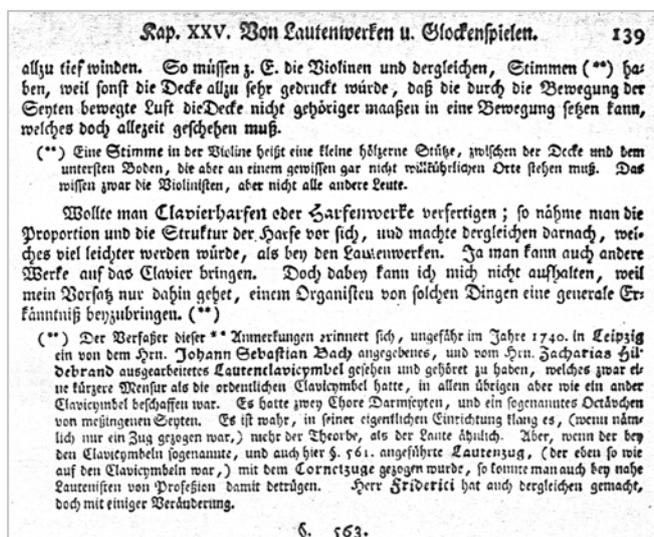

We know, thanks to the work *Musica mechanica Organoedi* (~1723-27) by J. Adlung (1699-1762), published posthumously in 1768 by J. F. Agricola (1720-1774), that Johann Nikolaus Bach (1669-1753), Johann Sebastian's cousin, owned at least one of these instruments, built by himself and referred to as a "Lautenwerk":

«Perhaps no one will want to believe me, that we can also have the Lute on the keyboard. I have so far seen none other than the one that Mr. J. N. Bach made in Jena. And as the strings of the Lute differ in coarseness, however, not in length, so it is also here; consequently also the back body does not become so narrow as in the Harpsichord. The difference exists mainly in the strings and bridges. They must be gut-only strings, otherwise there would be no Lute sound, and their length must have the same proportions as the Lute.» [...] follows constructive description of the Lautenwerk (Lautenclavicymbel).

We also know that in 1739 Bach gave Z. Hildebrandt (1688-1757) specifications for building one of these instruments; J. F. Agricola mentions it in a personal note of his, again in the chapter on the Lautenwerk in the *Musica mechanica Organoedi*, referring to it as a "Lautenclavicymbel", showing that the two names were interchangeable:

«(**) The editor of these notes remembers seeing and hearing a Lautenclavicymbel in Leipzig in 1740, designed by Mr. Johann Sebastian Bach and made by Mr. Zacharias Hildebrand, which was smaller in size than a regular harpsichord, but in all other respects similar. It had two registers in gut, and a so-called small octave [4' ndt] in brass strings. It is true that in its normal setting (i.e., when only one register was engaged) it sounded more like a Theorbo than a Lute. But if one were to set the "Lute register" (like that found on the Harpsichord) together with "Cornetta register" (the 4' in undamped brass), one could almost fool professional lutenists.» [...]

Here on the side and on the previous page: the work *Musica mechanica Organoedi* (~1723-27) by J. Adlung (1699-1762), published posthumously by J. F. Agricola (1720-1774) in 1768, under the heading Lautenwerk.

1.3 The "Specificatio": the instruments bequeathed by Bach

Bach's legacy was drafted posthumously in the fall of 1750, by family friend and Supreme Court Justice Friedrich Einrich Graff.

Chapter VI contains the following *Specificatio* regarding the musical instruments left at his death:

2. ANALYSIS OF HISTORICAL DATA

2.1 Considerations about the instruments that belonged to Bach

The construction cost of a Lautenclavicymbel was that of a harpsichord with all the fastenings and conical pegs made of wood, which were certainly more expensive than the iron hitchpins of the traditional harpsichord. In addition, there often had to be accounted the cost of a rounded belly like that of a Lute, but much larger, the size of a small Harpsichord. It appears from the description that Bach's personally designed instrument had two registers made in gut, plus a 4' brass one; once again, based on the description, it does not appear that it had a rounded belly, but it is conceivable that it boasted some special mechanics, which would justify the dedicated design: for instance, as on other Lautenclavicymbels of the time, having registers able to vary the timbre of the instrument. We know that, back in the day, playing the Lute would cost roughly as much as maintaining a horse, because of the value and low durability of the gut strings: but if a Lute had 20-24 strings at most, the Lautenclavicymbel boasted more than one hundred! To all this must be added the cost for the brass register. It is all in all understandable that it was a rather rare instrument.

In the *Specificatio* the Harpsichords are valued: 80 thalers the "valuable" one, 50 thalers the three that we have to consider "standard", while the "small" one of 20 thalers was probably a travel or a table instrument. The Lute is worth 21 thalers, while the two Lauten Werck (two detached words) are valued at 30 thalers each, a difference comparable to that between a Lute and a Theorbo. Objectively, the latter value does not seem plausible to us if we are to consider the specifications of the Lautenclavicymbel. This anomaly was already noticed by our father. We point out that in the document, whenever instruments are in poor conditions, as well as in the case of valuable workmanship or a prestigious maker, it is always specified.

According to Rudolf Bunge (1836-1907), Bach had an early Lauten Werck made by a maker directly referred to as "unknown", around 1717-23, for 60 thalers ["*J. B. Bach Kapelle zu Cöthen und deren nachgelassene Instrumente*" published in *BJ* (1905) p. 29]. We have no other historical data on this, but, again, we do not find it plausible to be a price compatible with a new Lautenclavicymbel; at the same time, however, this price is congruous with the 30 thalers of the Lauten Werck (two detached words) in the *specificatio*. On the other hand, we know that the 1739 Lautenclavicymbel described by Agricola was based on a design by Bach, but was made by Zacharias Hildebrandt (1688-1757), one of the most renowned organ builders of the time: this instrument would have been 10 or 11 years old at the time of the *Specificatio*. It seems unreasonable, to us, that the instrument made 30 years earlier by an unknown maker could have been estimated on par with the second one. It would also seem an odd oversight not to mention Hildebrandt as the maker.

Bach would thus have supposedly acquired not one but two Lautenclavicymbel: a first one in 1717-20, and after about 30 years a second one, designed by Bach himself and commissioned to

be built by a prestigious organ builder; however, only a single work is ever expressly composed by Bach for such instruments (BWV996 ~1708-17).

In light of these considerations, it does not seem reasonable to us to classify the instruments mentioned in the *Specificatio* as "Lauten Werck" (two detached words) as the Lautenclavicymbel. In our opinion, it seems more plausible that the instrument mentioned by Agricola was an assignment commissioned to Bach by some personage, and then given to the organ builder Hildebrandt to make. In fact, in Agricola's account, the Lautenclavicymbel is mentioned as being *designed* [angegebenes] by Bach and *made* by Hildebrandt, but there is no mention of ownership.

The news of two Lauten Werck in the *specificatio*, in our opinion, has never been given the attention it deserves, and yet it is a strong indication: even if we admitted that such a peculiar instrument was found in Bach's house, whatever its nature might've been, the presence of as many as two specimens in the permanent basis is objectively difficult to logically explain.

As for the Lute, it is a 1748 testamentary bequest to "dear friend" Bach from luthier J. Ch. Hoffmann (1683-1748).

We want to note how Bach owned, among his instruments, many of the peculiar instruments for which he composed: a violino piccolo, a violoncello piccolo, and two Lauten Werck.

2.2 Analysis of the musics

If we were to assume that these musics were to demonstrate the possibilities and capabilities of a peculiar instrument, today, in their singularities, they represent an important trace, a kind of map in Bach's most congenial language, namely composition, proving to be valuable witnesses for deciphering and circumscribing in the most unambiguous way possible the characteristics of the Lauten Werck, assigning it a collocation that excludes incorrect attributions.

• The hypothesis of attribution to a traditional keyboard

The instrument we are looking for must respect the possibilities and limitations of the music dedicated to it by Bach. Therefore, it would be a keyboard boasting a wider range in the bass compared to the traditional Lute (C_1), reaching up to G_0 , but limited to E_4/F_4 in the treble. We find that for a keyboard with such limitations it would be virtually impossible to perform any piece of the harpsichord and organ literature of the time.

It should also be noted that the Harpsichord version of the C minor Suite BWV997, with the highest part written an octave above the tablature versions, shows how the Lute range was not considered balanced for a keyboard even at that time. The tablature versions of this work reach F_4 , which remains a unique case as a limit for the treble in all these musics, which otherwise always stop at E_4 .

There are also other elements that lead one to doubt that these works are designed for a traditional keyboard.

Looking carefully, one may realize how, excluding chords, much of this literature could be

performed at the keyboard with the right hand and one or two fingers of the left hand: the disparity between the part written as bass and the part written as treble does not seem typical of a keyboard, especially a keyboard that we should attribute to Bach; instead, this difference in 'usage' is perfectly consistent with the different roles of the fingers when performing on a Lute.

No one seems to have pointed out, to date, that BWV1006A (*Partita in E major*), and the BWV998 (*E flat major*), show indications for *dynamics*. This is a sort of attention that Bach, in his works for "Clavier", reserves for only a very few instances: *Italian Concerto* BWV971 and *Overture in French Style* BWV931, which are two concertos with strong dynamics, conceived for a 2-keyboard harpsichord, and in the two *Toccate* BWV911 and BWV915 usually thought to be played on a Clavichord. There is also a *p.* on a non-autograph work: English Suite BWV806 n°1 - Giga. We have not found any other cases.

So, if Bach's Lauten Werck were to be identified with a keyboard instrument, it would have to be a two-keyboard instrument, but in this case their estimated value and the very presence of two specimens in the *specificatio* would be even more incomprehensible. We wonder, at this point, on what basis R. de Candé attributed the *E major* BWV1006A to the Lautenclavicymbel, unless this instrument also boasted the possibility of forte and piano.

Considering the entire corpus, one will certainly find passages that are impractical on the traditional Lute, but there are also chords that prove impossible to perform on a keyboard, at least by the customs of the time; we cite as an example the final chord of the Allemande in G minor BWV995. So, these musics, taken together, seem to lead back to something other than both the traditional keyboard and the Lute.

• The Lute Hypothesis

If we look at the instrumental inconsistencies in the musics, we might as well disregard the argument *a priori* by stating that Bach did not know the instrument to which he dedicated these musics. Mauro Manica, our father's close collaborator in his research, at a conference for the presentation of the book *Frau Musika: la vita e le opere di J.S. Bach* (EDT 1983), asked the author, Alberto Basso, whether Bach could have written music for an instrument he did not know well: the scholar ruled out this possibility. Considering the relationship of "dear friendship" with Lute maker J. Ch. Hoffmann (1683-1748), who upon his death made him a bequest of one of his Lutes, and most of all knowing that Bach hosted S. L. Weiss, esteemed as the greatest lutenist, for about a month at his home, having fun improvising fugues, claiming that Bach was not aware of the Lute's capabilities and limits appears utterly unreasonable to us. Looking at the music, the matter appears even more complicated. Despite the fact that these works do not appear to be entirely performable on a traditional Lute, what seems to transpire from the musics is that it is nevertheless a *similar* instrument: the very limited range in the treble, a slight tendency towards *parti late* writing, and the constant presence of extremely low-ranged melodies, centered between the treble

and bass clef are idiomatic characteristics of the Lute; in short, despite the difficulties, this music presents a high *index of instrumentality*, a trait that is by no means obvious- considering that the Lute possesses many specific performance limitations.

In any case, judging from the music, it must have been a remarkable instrument, not akin *tout court* to the Lute. Performing all the major chords found in the work for Lauten Werck, playing all the altered bass notes, performing all the grace notes and at the same time at least ideally respecting the frequent tenuto where required by the composer, within compositions that always turn out to be very rich, constitutes an extremely tightly meshed grid through which to filter the possible instrument. These combinations were punctually matched throughout the entire *corpus*, using the instrument we are about to define.

• **The strange case of bass range**

A strong singularity, to which no one to date has paid attention, is the particular extension Bach achieves in the bass in each individual collection for Lute.

In collections consisting of several pieces written for solo instrument, as in the case of Suites or Partitas or Sonatas, Bach always touches the lowest (in some cases sharp) note playable on the instrument to which they are dedicated. This occurs in the Partita for solo flute, in each Suite for solo cello, and in each Partita and each Sonata for solo Violin. Indeed, he reaches the lowest note in *every single piece* in the Partita for Flute, in 5 out of 6 collections for Violin, and in 2 suites for Cello solo.

In his works for Lute, however, Bach reaches a different range in the bass in each case: he seems to use an 11-order Lute for one Suite (BWV996), a 13-order Lute for three Suites (BWV1006A, BWV997, and BWV998), and a 14-order Lute in one Suite (BWV995). As we have already pointed out, a 14-order Lute represents a historical dilemma, in the sense that there are no records of such Lutes: as far as is known, it was S. L. Weiss who expanded the traditional Baroque Lute, although it was from 11 to 13 orders.

This instrumental incongruity, however, when observed from another point of view, presents a surprisingly noteworthy consistency: considering each collection separately, in fact, the extension reached in the bass *always* corresponds to the same interval in accordance with the *accidentals in the key*, namely a major third below the minor tonic: for instance, if the chosen key is *C minor*, the lowest note is A_{b_0} ($C \Rightarrow A_b$), while in the case of *E minor*, the lowest note is C_1 ($E \Rightarrow C$). *Major* tones have the same range as *minor* tones, so even *E, major* (as *C minor*) reaches A_{b_0} in the grave. This rule is broken only in the key of *G minor* (BWV995), in which Bach does not reach E_{b_0} , but stops at the aforementioned G_0 , as the most extreme scenario: even this boundary, however, appears more inherent to the physical limits of a Lute than to those of a keyboard.

One must at least admit that this is a rather intriguing combination.

• Bach's other musics for Lute

The idea that all of these works were intended for a particular instrument, albeit with the possibility of arranging them on a traditional Lute, is reinforced by taking a quick look at the other three pieces, in addition to those for solo Lute, that Bach dedicates expressly to the instrument. We note that although these are short individual pieces and not entire collections, even in the Matthaues Passion the extension in the bass of two tones below the minor tonic (B_{b0}), is reached, while in the other two pieces this position is not reached but the limit is still respected. The lute used for the Matthaues Passion therefore may still be different, a 12-order instrument.

Let us see these works in detail.

- *The recitative and aria n° 56-57 «Komm, Süßes kreuz» from the first version (1717) of the Matthaues Passion BWV244.*

The presence of two E_{b1} (along with the frequent E_1), creates some perplexity, considering that the Lute part has its own dedicated double staff; the note, in unison with the cello, is nevertheless playable, although very low for fingering. Aside from this instance, the piece is very instrumental in its key (*D minor*), but it shows how the author is at least seriously committed to modulating very low on the Lute instrument, and having it perform rich chords.

- At bar 50 of this piece (right here), the last chord of the Lute bears a mark that has sometimes been interpreted as a tablature mark: an α on the third string which would indicate on the *Lute in D minor* a A_3 , since it is the reprise of the theme. We believe that this is simply a correction made in German notation, as is found in the case of other errors corrected by the author elsewhere in the manuscript of the same Opera, for example, as shown here on the left, in Recitatives n°55 and 56.

Matthaues Passion,
BWV244, Aria 57 b. 50.

- *Arioso «Betrachte, meine Seel'» in the 2ª part of the Johannes Passion BWV245.*

In the case of the Johannes Passion BWV245 (1724), in this short piece (18 bars) in E_b major, written in full for two voices that are always dialoguing, Bach finds a way to insert the following notes: $F\#_1$, F_{b1} , E_1 , E_{b1} , D_1 .

- *In the Trauerode BWV198 there are almost always two Lutes present, in particular we can observe the Aria «Wie starb die Heldin so vergnügt» in which the Lute accompanies along with the Continuo.*

The overly frequent use of altered basses is even more evident in this piece in *D major* for 2 Lutes from the Trauerode: we know that the daughter of the dedicatory prince was an amateur lute player, and it is generally believed that Bach envisaged the lute soloist as a tribute to the

lutenist. We find, scattered throughout the written part in the bass line alone:

F_{♯1}, E_{♯1}, E_{♭1}, D_{♯1}, D₁, C_{♯1}, C_{♭1}, B_{♭0}.

Considering that this is a part dedicated to the Lute, the chromaticism is definitely abnormal. It should also be noted that B_{♭0} is not playable on any accompanying instrument of the time that would accompany the Lute: neither on the Cello, nor on Viola da gamba, nor on the Bassoon; therefore, the Lute had to skip some notes of the bass line, leaving its execution to the Organ; if anything, it seems rather outrageous, considering it's a piece dedicated to a Lutenist. In any case, one gets the impression that Bach always intended or needed to engage the Lute chromatically all the way down to the lowest bass notes. But perhaps, on this occasion, one of the two Lutes might have been able to overcome these difficulties.

• **The Mechanical Lute Hypothesis**

Our father was not the first person to propose a Lute equipped with mechanical levers. Franz J. Giesbert (1896-1972) in his article in the journal *Die Musikforschung Kassel* n° 4 of 1972 [ed. Bärenreiten-Verlag] D minor tuning, with 9 choruses all fingerable, and 12 keys. The last 4 basses are a sort of broken octave, equipped with 3 levers under the neck, always reachable with the left

Empty	G ₀	A _♯	D	E					
(Lever1)	G _♯	B	D _♯	F					
(Lever2)	A	C	E	F _♯					
(Lever3)	A _♯	C _♯	F	G	C	E _b	G	C	E _b
fingered	B	D	F _♯	G _♯	C _♯	E	G _♯	C _♯	E

thumb; each lever raises all four basses chromatically (one semitone, one tone, one and a half tone). This hypothesis cannot solve all the

problems associated with Bach's music, however, it is the first to address the lack of positions in the middle strings found when playing these musics on a traditional Lute.

Our father had extensively studied the possibility of incorporating what he called "Polish Corridor", which is an overlap between the diatonic basses and the first 6 strings, achieved by "recessed" tuning. This solution was later discarded.

The Lauten Werck mentioned both on the title page of the Suite in E minor BWV996 and in the *Specificatio* in two detached words (to our knowledge, the only historical cases) capable of overcoming the problems in these musics, in our opinion actually corresponds to a Lute equipped with innovative mechanics, but so far not correctly identified.

Let us remember that the repairs of instruments had allegedly procured Bach "numerous additional compensations in the courts where he found himself working" (P. Buscaroli). We can therefore hypothesize that Bach was the inventor, or co-inventor, or at least the promoter of a new instrument: only in this way does the presence in Bach's house not only of a definitive instrument, but also of a working prototype or a first version become justifiable: *a project or an invention* in our opinion is the only plausible explanation for the presence of as many as two copies of such a peculiar instrument as the Lauten Werck, whatever its nature was.

It would seem, in short, to be a juvenile idea, for which Johann Sebastian, at least for a time, must also have spared some enthusiasm.

Berichte und Kleine Beiträge 485

Bach und die Laute
VON FRANZ JULIUS GIESBERT†, NEUWIED

Bach hat seine Lautenstücke in Noten niedergeschrieben, so daß wir genau wissen, was auf der Laute klingen soll, welche Töne gehalten, welche kurz angeschlagen werden sollen, insbesondere auch, wann ein Pausenzeichen das Abdämpfen der Saiten verlangt. Was er nicht mitgeteilt hat, ist die Stimmung der Laute. Schon die Intabulierungen seiner Zeitgenossen zeigen, daß sich die meisten Stücke nicht ohne wesentliche Veränderungen in der damals üblichen Stimmung spielen lassen. Diese Tatsache darf nicht zu dem Schluß führen, Bach habe die Laute nicht spielen können, muß uns vielmehr veranlassen, die Stimmung zu suchen, in der die mit größter Genauigkeit verfaßte Niederschrift zu verwirklichen ist.

Als gesicherte Lautenwerke können bisher angesehen werden:

BWV 995	Suite g-moll: Praeludium, Allemande, Courante, Gavotte I u. II, Gigue
BWV 996	Suite e-moll: Praeludio, Allemande, Courante, Sarabande, Gigue
BWV 997	Suite c-moll: Präludium, Fuge, Sarabande, Gigue, Double
BWV 998	Suite Es-dur: Präludium, Fuge, Allegro
BWV 999	Präludium c-moll
BWV 1000	Fuge g-moll
BWV 1006 a	Suite E-dur: Präludium, Loure, Gavotte en Rondeau, Menuett I u. II, Bourrée, Gigue

Zu den Lautenkompositionen Bachs gehören auch:

BWV 245,31 Die Begleitstimme zur Arie *Betrachte, mein Seel* aus der *Johannespassion*, ferner:

BWV 198 Die Partien der beiden Laute im Tombeau.

In der damals üblichen, auf A aufgebauten Stimmung der Spielchöre im d-moll Akkord läßt sich außer der in Tabulatur für diese Stimmung überlieferten Fuge g-moll nur ein kleiner Teil der Stücke spielen: Das Präludium c-moll, die Suite Es-dur (besser mit *B d f a d' f'*), die Arie „*Betrachte mein Seel*“ und die Partien des Tombeaus. Daraus müssen wir den Schluß ziehen, daß Bach für die übrigen Stücke Scordaturen benutzt hat, aber Scordaturen, die unter den 23 bekannt gewordenen des 17. Jahrhunderts nicht nachweisbar sind. Die Suiten g-moll und c-moll lassen sich nur genau wiedergeben, wenn der 2. Chor auf c' herabgestimmt wird. Die Suite e-moll verlangt die Scordatur der Spielchöre: *c e g h e'*. Für die Suite E-dur müssen die beiden leeren Chöre a und e' verfügbar sein. Das geht nur mit den Stimmungen *d f a cis' e'* oder *cis e a cis' e'* oder *c e a h e'*. Außerdem bleibt die Forderung nach einem 14. Chor für G, der aber nur in der Suite g-moll verlangt wird.

° Dieses Ergebnis befriedigt nicht. Bach war kein Lautenist, der wie die anderen Lautenisten nur für sein Instrument schrieb und vielleicht besondere Klangwirkungen aus dem Instrument herausholen oder neue spieltechnische Anregungen geben wollte. Ihm mußte mehr daran liegen, für das damals noch ziemlich verbreitete und von ihm offenbar geschätzte Instrument eigene Werke zu schreiben. Diese in Scordaturen abgefaßten Stücke aber wären den Spielern nur zugänglich gewesen, wenn Bach sie in Tabulatur geschrieben und die abweichende Stimmung jedesmal dem Spieler angezeigt hätte. Wir besitzen aber keine Tabulatur von seiner Hand. Nur ein einziger Tabulaturbuchstabe befindet sich in dem Autograph der Suite g-moll. Es ist ein *d*, das zur Verdeutlichung der etwas unklaren Note dienen soll. Dieses *d* ist nicht das gewöhnliche *d* seiner Handschrift.

Vielleicht kann uns eine andere Beobachtung weiter helfen. An der Notierung fällt auf, daß im allgemeinen der Text in Stimmen aufgeteilt ist. Hin und wieder aber erscheinen die beiden Töne einer Oktave an einem Stiel. Stellen wir sie zusammen, so ergibt sich folgende Reihe:

The first page of Franz J. Giesbert's 1972 article.

3. INSTRUMENT IDENTIFICATION

3.1 Historical Limitations of the Lute

One historical limitation of the traditional Lute, which could push towards a renewal, was its shortcomings in properly harmonizing Basso Continuo, a practice that formed the backbone of all ensemble music of the time. Despite the various solutions adopted by the Lute and the Theorbo, even at various historical times, some obstacles persisted in fulfilling this polyphonic role: the most notorious inconvenience was the instrument's need to re-tune the bass strings at every change of key, but even fingering comfortably in the lower octave, or performing a chord on a bass note altered from the starting key could prove a problem. All this, while compositions became increasingly daring in their modulations. Although, historically, there have been attempts to improve some instruments' capabilities, as in the case of the Theorbo which was provided with chromatic basses, bringing its choruses up to 19, however, the difficulties of bass realization have never been definitively solved, and new performance deficiencies have inevitably spilled over into the treble. We quote, by way of example:

«It is often possible to find in the bass a melodic line that rises up to middle C, above which is placed a 6 or a dissonance 7-6, theoretically possible, but practically unfeasible on the theorbo; in fact the 7-6 chord becomes unable to be performed on all those notes between A₂ and C₂, due to the aforementioned lack of extension of the instrument towards the treble notes, and the consequent impossibility to overlap harmonies. In Caccini it is possible to find the 11-#10 on E₂ or A₂; if we want to perform the noted interval without lowering it an octave, it too is impractical for the same reason. [G. Caccini, Nuove musiche -1601 "Queste lagrim'amare" p. 2]»

[Diego Cantalupi, La tiorba ed il suo uso in Italia come strumento per basso continuo, 1996; pp 69-70].

And again:

«Let us remember that in the basso continuo and solo repertoire for Lute, one will occasionally find himself playing an inverted chord where one would have thought of it in the fundamental state, but the tuning of the theorbo in that given case does not allow it. Here it is up to the skill of the performer to put more emphasis on the fundamental note of the chord, even if it is not the lowest; this changes the harmonic perception of the listener.»

[Francesca Torelli, Metodo per Tiorba, Ut Orpheus Edizioni, 2006; pag. 8].

Finally, we note how lutenists nowadays still often transcribes the accompanying bass part by translating it in tablature, since it can be very challenging to perform an 18th century basso continuo on the lute, maybe even at first sight, reading it on the traditional score.

Despite everything, plucked instruments were particularly appreciated as accompanying instruments, not only for the voice, but also for the flute, for example:

«[...] je crois que la Theorbe est à préférer au Clavecin [...]» (...I believe that the Theorbo is to be preferred to the Harpsichord...)

[M. De La Barre, *Pieces pour la Flute Traversiere*, "Avertissement", Paris, 1703].

Although lutenists always somehow managed to perform Basso Continuo, it is very likely that in Bach's eyes this state of affairs was hardly acceptable. In any case, both the historical solutions we've covered or a simple lever that altered all the basses together by a semitone, which could improve the performance of the Basso Continuo but not permanently solve all its problems, did not tickle Bach's fancy, since the work for Lauten Werck would not be performable with these simple adjustments alone. From what we understand, he had found a more ambitious instrument to which he could devote his work.

3.2 The founding insight for the Lauten Werck: a reading revolution

The tablature is a particular type of musical writing that developed mainly in the 16th and 17th centuries, used essentially for the Lute, the Guitar and the Organ; instead of indicating the pitch of the notes, the tablature marks the positions to be played on the instrument: in the case of the Lute it indicates not only the position to be fingered with the left hand on the neck, but also which string to pluck, greatly facilitating the performance, also considering that more than any other polyphonic instrument the Lute presents numerous possible combinations for each individual note. This is why the literature for Lute is almost exclusively composed in this particular notation: tablature was so well-functional that lutenists were not eager to abandon it. This does not mean that they ignored modern notation; rather, it did not constitute their native and habitual language.

We propose here a fascinating hypothesis, which we believe was Bach's, or whoever in his stead, triggering intuition for the invention of this new instrument: the *Lauten Werck*.

If we place on the neck of the Lute a capotasto, that is to say a clamp that practically shortens all the strings to a new length, set each time in the key of the piece that is to be played, it will no longer be necessary to tune the lute at every change of key. However, the most important thing, which we intend to highlight here, is that *each open string* will always correspond to the *same scale degree*: I, II, III, IV degree, etc. This solution had already been used by our father, although he did not in fact realize its potential.

All this implies that if we position the capotasto on the correct fret when we play an accompaniment, once we have identified the *degree* present in the bass note at that moment, all the *numbers* of the *Basso Continuo* become the same configurations on the lute fingerboard.

To better explain: once the lutenist has learned every hand position for each degree (such as I6, V6/4, and so on) on a single key, then he can freely translate that knowledge to all and every key just by moving the capotasto accordingly.

The idea in practice is to be able to read directly all the *Numbered Bass* existing in musical literature as a tablature for Lute: therefore, virtually, without knowing which notes correspond to the individual frets, and, limiting oneself to playing the grades and the bass line, without even

possessing any knowledge of harmony (see §6). This would have allowed even a budding lutenist to practice ensemble music.

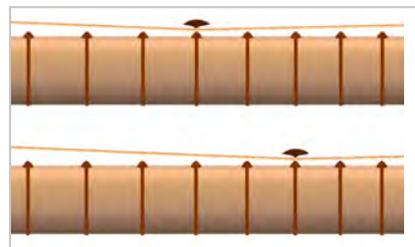

But could we truly dare to interpret *Basso Continuo* as a form of Lute tablature?

Perhaps because of a historical legacy, the *Basso Numerato* possesses many of the characteristics of the Lute tablature: first, it does not precisely indicate *the intervals* of the sounds, but *the degrees* of the notes: though not with respect to tuning, as is the case in the Lute tablature, but with respect to the key signature and simultaneously to the note present in the bass at that moment; in essence, the *Basso Continuo* is nothing more than *a variable reference tablature*. Secondly, it uses exactly the same criterion as the Lute for note values: that is, it does not consider the duration of the sounds, but only indicates their starting point, specified, just like in the tablature, by notes ranged in a column with numbers. Finally, the very use of numbers to identify notes, as well as the usage of the horizontal line to indicate tenuto, are ingrained customs in lutenistic tablature.

It is reasonable to assume that these concordances did not escape Bach's attention. A possibility of such mileage, at the time, could have justified the redefinition or modification of the Lute instrument.

Finally, it should be remembered that the *key signature*, and consequently the numbers of the Basso Continuo, does not distinguish between major and minor keys, considering the leading note of a minor key as a passing alteration; thus we end up with only 12 different total signatures. Without this peculiarity, our solution would also be unfeasible: since it is possible to read the Basso Continuo as a tablature only if a capotasto is placed on the fret inherent to the key signature, we find all 24 keys compacted on 12 consecutive frets.

When we play on the fingerboard position corresponding to the armature in key, the *degree* in the bass note indicates the *position* to be played in the bass, and starting from that all the numbers become fingerings along a fixed and repetitive path on the fingerboard, independent of key: a lutenistic tablature in its own right (see §6).

The lever for the capotasto should be placed on the fret related to the key of the Suite, Sonata or piece to be played. We shall call this mechanic **movable capotasto**.

3.3 The solution for the technical extension

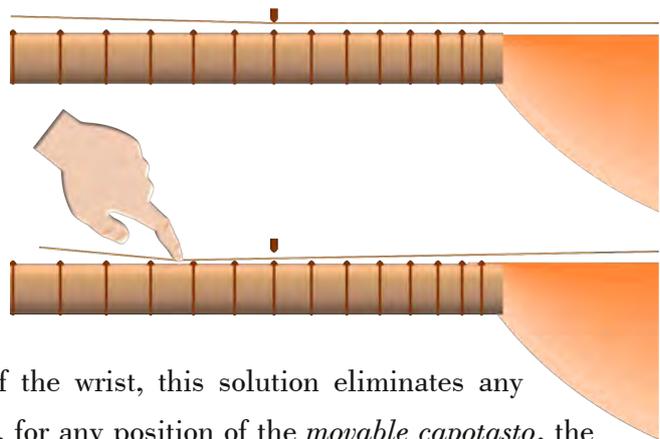

In addition to the fact that the movable capotasto is by no means sufficient to solve the executability of the Bachian Corpus, this solution raises a major instrumental limitation: a lute whose capotasto shifts over 12 positions becomes, for most tonalities, a mutilated instrument: short strings, hence little sound, and few frets, hence poor possibilities for extension and timbre: a Lute with a diapason that shifts on 12 frets results from an instrumental point of view far worse than a hypothetical semitone-lever for basses: an unacceptable sacrifice for a lutenist.

The same problem, although starting from different assumptions, had also occurred to our father, who had solved it in the most rational way, by replacing the higher keys with "close" ones further

back on the neck, thus reducing the movements of the *movable capotasto*. While the use of the movable capotasto remains the common ground with his study, the divergence that followed stems precisely from the idea that the Lauten Werck was designed to be able to read the *numbered bass* as a tablature. Since in this case it becomes mandatory to maintain the correct position of the pitches, the solution had to be sought elsewhere.

Solving the problem of poor fingerboard performance with the *movable capotasto* inevitably leads to considering a new, suggestive possibility; credit for solving this problem goes to my brother Joseph. Suppose we could finger along the fingerboard not only the frets that are *in front* of the active position of the *movable capotasto*, but also all those that are *behind*, up to the nut. To achieve this possibility, as we have verified on the instrument we built, it is sufficient that the capotasto presses

on the strings without pressing them down completely against the plane of the neck, remaining slightly suspended, with an *action* of about 4-6 mm, (see §8). In this way the Lute will play very well when open at the position of the *movable capotasto*, and it will be possible to finger both in front of and

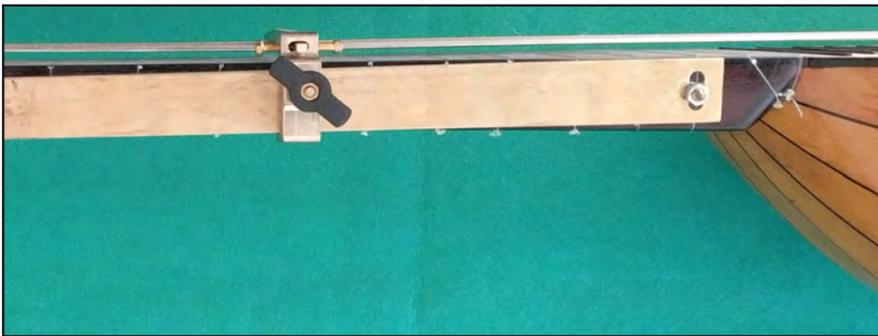

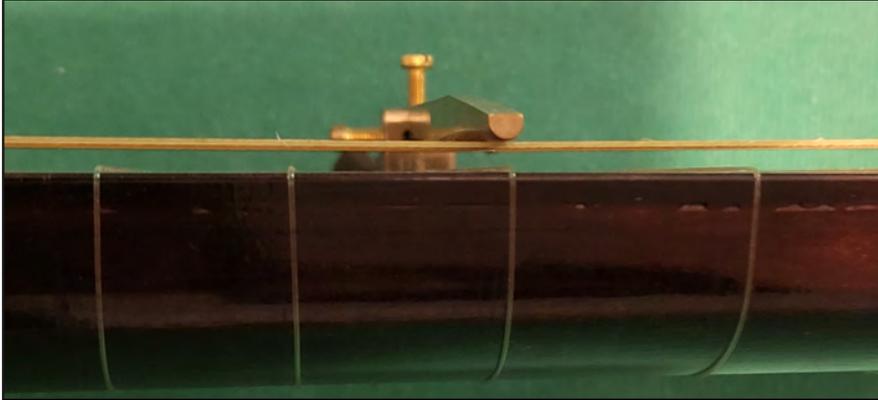

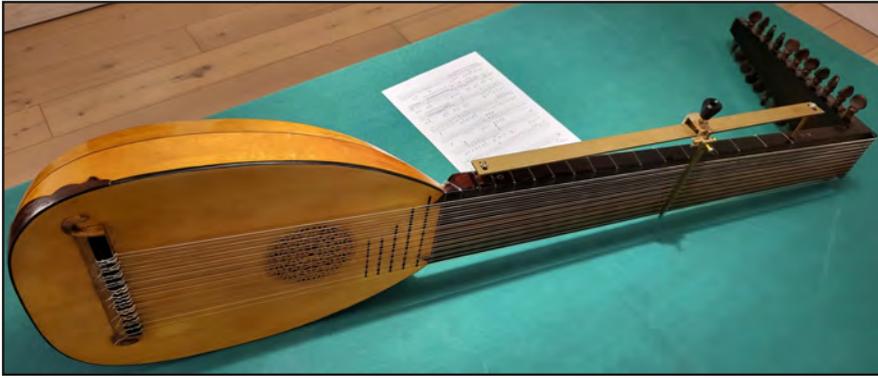

behind the *movable capotasto*. With a flick of the wrist, this solution eliminates any problem of poor usability, restoring to the Lute, for any position of the *movable capotasto*, the ability to make use of all the sonorities, timbres, and possibilities of its full, large fretboard, while retaining key references. We will call **negative keys** the fingerable positions posterior to the active position of the *movable capotasto*.

This solution, in addition to broadening the fingering range in the low range, has another advantage, even more functional for the realization of the *basso continuo*: the *negative keys* make it possible to practically double the combinations that are generated around the open strings, reaching precisely the notes that are furthest away in traditional fingering; it thus becomes possible to choose the *melodic position* of the chords much more frequently as well, and to compact them on neighboring strings. Moreover, this possibility solves the aforementioned need in Bach's literature to overlap neighboring notes on different strings, as both Giesbert and our father had noted.

We can assume, with reasonable common sense, that Bach, having a large fretboard at will and always fully available, foresaw the possibility of going down to the fingerable C_1 on the fingerboard; in this way, basses not attainable on the traditional Lute and the Theorbo can be nimbly played.

In practice, the Lauten Werck allows the lutenist to overcome the obstacle of realization in modern notation, reading the *Numbered Bass* as if it were a tablature. It also makes it possible to tune oneself in any key in a matter of seconds, and gives one the opportunity at all times to take full advantage of the instrument's great range and enormous technical and sound possibilities, without ever giving up even a single fret, whatever the active position of the *movable capotasto*.

This combination of solutions substantially fills the shortcomings mentioned for the performance of the *Basso Continuo* on the Lute.

Suite in Mi min. BWV996 - Presto b.1

4. TUNING DEFINITION AND RANGE OF THE LAUTEN WERCK

After broadly defining the mechanics, the solution of the possible instrument is developed through the musics, trying to identify a tuning that would allow the entire Bachian *corpus* to be performed. Actually, our study of reconstructing the compatible instrument and tuning that would meet the needs of these particular musics was rather tortuous, because at that time the definition of the two aspects had to develop concomitantly. Let us merely state that, starting from our father's tuning (A - C - E - A - D - F), we eventually arrived at identifying as the basic tuning simply that of a *Lute in D minor*.

According to our reconstruction, on the rearmost position is:

$$C_{\#1} - F_{\#} - A - C_{\#2} - F_{\#} - A$$

the $F_{\#}$ minor - A major position. From here, if we move ahead through 12 positions to cover all the keys, the first 6 orders to the highest key become:

$$C_2 - F - A_b - C_3 - F - A_b$$

a position that represents the keys of F minor - A_b major (see §7).

Let us now try to retrace what must have reasonably been the path followed by Bach, or at any rate by the inventors of the Lauten Werck, to define the instrument, by following motivations that are as linear and functional as possible:

- It is possible that, wanting to keep the *Lute in D minor* but expand the range in the basses, the first string was set in A_2 , tuning it like that of a theorbo, and then the instrument was built from there.
- Another possibility is that, still keeping the tuning of D minor, by setting back along the fretboard until finding the low C of the Basso Continuo on the 6th-7th order, one could move in the basses in a balanced way with his left hand.
- It is also possible that, intending to make the low C of the Basso Continuo available in the higher pitch/position as well, it was set on the 12th order, preferring to increase the orders of the traditional Lute, as it was in fashion at that time, rather than lengthen it further; from here, moving back 12 frets, one finds the lowest pitch.
- More likely, a choice was made considering all these different factors, and also avoiding that very commonly used key happened to be on the most forward and most backward positions.

Following this pattern, Bach does not compose in the lowest key (*F_♯ minor*), but uses the second to lowest position, (*G minor*), which is thus the most "backward" of the keys used by Bach for the Lauten Werck, and in which, not surprisingly, since there are many bass notes so far back, he goes as far down as G_0 , as if to indicate the physical limit of the instrument.

In perfect symmetry, Bach does not use the highest key (*F minor*), but composes for the second to highest position (*E minor*), which is thus the most "advanced" position of those used by Bach on the Lauten Werck, and to which he dedicates the most idiomatic work, in which a very high-pitched 6-note obbligato barré (*Sarabande, b.11*), indicates the extent of the fingerboard.

For his other significant work, Bach once again chooses carefully, setting the key of *E major*, universally regarded as non-instrumental on the *D minor Lute*, so much so that S. L. Weiss does not dedicate a single one of his more than a thousand compositions to it. Of course, on the Lauten Werck this key is analogous to the others.

The position of *G minor* was the lowest on our father's instrument as well, although on a different tuning, just as *E minor* was the highest.

Bach seems not to finger barrés that go beyond the 7th position of *D minor*, so the fretboard could stop at C_4 with 16 frets on the fingerboard, a number similar to that of the modern guitar. Bach's musics indicate an extension up to E_4 , that is, 11 frets above *D minor*; the notes above C_4 can be fingered on the soundboard, so some frets must be added there, at least 4, if not even 5 when we consider the F_4 found in the BWV997, a number of frets compatible with instruments of the time.

The Lauten Werck would thus have had 12 courses, with the *movable capotasto* set on 12 frets; 16 frets on the fretboard, plus 4-5 frets on the soundboard, with the fingering range on the fretboard being in the first 6 courses from $C(\frac{\sharp}{\flat})_1$ to C_4 . In this way, each key reaches exactly the minor tonic+2 tones in the bass extension on the lowest string, which, as explained, is one of the singularities of Bach's works. Obviously, as one proceeds with the keys further forward on the keyboard, one has shallower bass notes, up to C_1 , while, moving back, one is unable to perform below G_0 , for obvious reasons of string sonority; Bach's music follows these limitations, and this range has been maintained in the reconstruction of the instrument (see §7).

By placing the *movable capotasto* at the *D minor* position, the entire solo lute literature of this period can be performed on this instrument on a reasonable diapason: dating the Lauten Werck around the years 1715-25 in fact, the typical range of the *D minor lute* was 11 orders (first known 13-chord piece: S. L. Weiss, 1719).

The dimensions required of the instrument for these features are within the norm of the time: the Theorbo, which generally favors a rather wide body to increase sonority, would reach a 900-950mm diapason, with the traditional 8-9 frets - (es. *M.Tieffenbrucker, Diapason 930/1700mm [treble fret~586mm] Venezia 1608*); otherwise the *D minor Lute* prefers a smaller body [390-440mm], so as to contain the same number of frets, up to the 10 that J. Dowland (1610) suggested, on a much shorter neck, which gives it the agility needed to perform solo repertoire; the Liuto Attiorbato may

have had an even smaller body (e.g., *C.Coch, V&A Museum-London 570/850 mm [high fret ~320mm], Venice undated*).

By joining the neck of a Theorbo [830-950mm] to the body of a Lute [high fret 350-400mm], the dimensions of the Lauten Werck are thus obtained, without having to move the bridge toward the neck, shrinking the width of the frets as is done on the modern guitar. Setting the *movable capotasto* to *D minor* gives a diapason of ~520/560mm with 7 frets on the neck.

The length of the gut string at the first string (A_2), with diapason 415Hz, is in accordance with the laws of physics:

$$L . \max(La_2) = \frac{248}{207,5 \text{ Hertz}} = 1,20 \text{ mt}$$

The name Lauten Werck reflects the characteristics of the instrument, being, in essence, a 12-course *D minor lute*, with an elongated neck comparable to that of an Liuto Attiorbato, and equipped with a mechanical contrivance.

5. FINAL CONSIDERATIONS

5.1 Conclusions

We can only assume that this reconstruction represents historical reality. Admittedly, it seems singular that such an instrument has not been described by any documentalist of the time, and yet this is also the case with another instrument of the specificatio, the Violoncello Piccolo: employed by some composers of the time besides Bach (e.g., Giuseppe Sammartini [1695-1750] concerto for Violoncello Piccolo and orchestra), it is not mentioned on any document outside of the scores; and equally, even for the Violoncello Piccolo, we have serious difficulties in understanding how the instrument was constructed and tuned.

Finally, let us remember that the Lutenists of the time presided over an authoritative instrument that was on its way to extinction, and it is therefore natural that they were strongly conservative and distrustful of new things. It is also possible that the instrument designed at the time had some flaws in its form, which made it undesirable to professionals.

If, however, we admit that there exists a Lauten Werck matter to begin with, that is to say a corpus of musics defined by significant peculiarities, then our reconstruction is the first one able to solve and explain all its quirks.

Importantly, the various hypotheses of instrument or tuning modifications to date present no reasonable motivation behind their construction other than the self-referential one of being able to perform Bach's music.

We therefore invite comparisons in this regard with the various solutions proposed historically, and avoid imputing carelessness or inexpertness to Bach in writing entire collections of music. In particular, we recommend considering the following points:

- Ensuring full playability to all of Bach's music for this instrument in its original key.*
- Proposing an instrument that justifies its emergence with a valid motif.*
- Increasing the ability to perform in the middle section of the instrument compared to the traditional Lute, as is evidently required by the musics examined.*
- Justifying the presence of the dynamic marks in two autograph collections.*
- Explaining the presence of the as many as two Lauten Werck in Bach's will.*
- Demonstrating the consistency of economic value of the two Lauten Werk in the specificatio.*
- Justifying such a limited extension of these musics in the treble.*
- Explaining the extension in the bass so strangely related to tonality.*
- Giving an explanation to the presence of G_0 notes in the bass, which otherwise would imply the existence of a historically unheard-of 14-order Lute.*
- Allowing the performance of all grace notes (by tone and semitone) as well as ideal respect of all the note values found in the Bachian corpus.*

– Giving an explanation to all the altered bass notes found in Bach's compositions with *liuto obbligato* not "a solo".

– Finally, it means proposing an appropriate instrument for these particular musics.

We would like to give an idea of what we mean by "an appropriate instrument for these particular musics": from a study on the note values in the first part of the *Courante in E minor BWV996*, and using this reconstruction, as many as 41 of these sounds end exactly at the moment when it is necessary to reuse the string again, while only in 16 cases (including 13 in the bass), after the note duration, the string is left unused.

Lastly, we'd like to point out how in both our father's and F. J. Giesbert's study, physically unreachable altered notes were entrusted to mechanics that were never properly clarified. In this regard we must note how the first real difficulty encountered in this lengthy study was precisely the failed attempt to reconstruct a mechanics compatible with either our father's or Giesbert's theory. That was, levers placed under the neck, to be operated with the thumb, perhaps while playing a demanding piece, with which one could also perform the frequent lower and upper grace notes, of semitone and tone, practically over the entire range of the instrument, as found in Bach's music.

Definitively, if the instrument used by Bach does not correspond precisely to the one we have identified, in our judgment it should still be an instrument with similar characteristics.

The instrument we reconstructed as the *Lauten Werck* thus looks like a Lute, with the usual body, which is played by the lutenist in the traditional manner, with a long neck equipped with 16 fingerable keys, and incorporating the 12-key change mechanism in the neck itself.

Evidently, the design did not seem to be appreciated by the lutenists of the time, and it is our belief that for this reason only one work was dedicated strictly to the *Lauten Werck*, while the others were intended to be played on a traditional instrument, hence the label *pour La Luth* or *pour le Lute ó cimbaló*: in fact, once the *movable capotasto* is set to the correct key, this part of the musics turns out to be playable on the Lute, except for a few notes, a few tenutos, a few grace notes, and playing a few basses an octave higher, without making use of the *negative keys*. This would also explain why lutenists so often perform these musics on a traditional Lute by transposing them to a different key: in other words, the fact that these musics are nowadays only played after transposition validates our hypothesis of a *movable capotasto*, and strengthens the attribution to the *Lauten Werck* for this part of the compositions as well. Of course, on the *Lauten Werck* the original keys are never compromised.

Even the solution proposed by Franz. J. Giesbert, of lowering the *D minor Lute* by a major second in order to perform all the music in that key, using a mechanics for the bass strings, perfectly reflects the same idea: Giesbert had intuited how Bach's compositions mirror the balance of a *D minor Lute*, with an additional mechanics and more combinations on the fretboard.

In this study we present the tablatures of the *E minor BWV996* and *E major BWV1006A* suites.

The *C minor Partita BWV997* has come down to us in massively rearranged lute versions, and

should therefore be considered with reservations within this discussion. Still on the subject of this Partita, it is our opinion that if there was, as is possible, an original version for Lauten Werck, it was perhaps in a lower key: *B minor* or *A minor*; this is considering the slightly higher tessitura than in the other Suites even after lowering the treble by an octave, and the presence in all the tablature versions of the time of an F_4 in the treble, the only case in the entire *corpus*.

The Lauten Werck would thus be an instrument that brings together, perfecting them, both souls of the instrument of the time, of accompanist and soloist:

- It is able to realize the entire Basso Continuo by reading it directly in modern notation, as if it were a Lute tablature, virtually without the need to possess knowledge of harmony. There is no need to tune the instrument to adjust it to the chosen key, and it performs a key change in seconds. It consistently has the entire chromatic scale from A0 to E4 on the fretboard, as well as a greatly expanded ability to perform chords compared to the traditional Theorbo and Lute.
- At the same time it allows the performance of the entire D minor literature of the period on a very agile diapason, in addition, of course, to the music dedicated by Bach to the instrument.
- Let us add, *en passant*, that it is able to accompany in transposition and adapt to different forks (e.g. 415Hz, 440Hz) on the fly.

All things considered, we seem to recognize in this solution, rather than a different instrument, a lost evolution of the Lute.

Simone Cipriani

5.2 Afterword

Despite the Lauten Werck's mechanics and technical solutions, these pages nevertheless remain extremely challenging. Not infrequently, in the "solo" works, Bach achieves a virtuosity that is arduous and innovative for the instruments of the time. Let us think of the Chaconne for solo Violin, the Allemande for solo Flute, or some of the compositions for Organ. However, in all this analysis, we have still overlooked a noteworthy aspect.

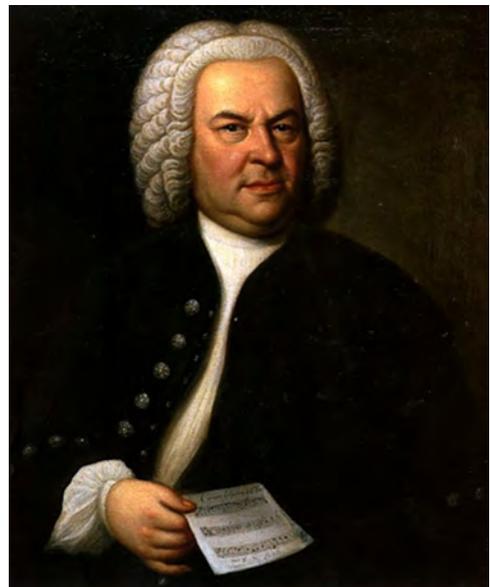

As already mentioned, the Lute more than any other polyphonic instrument possesses numerous possible positions for each note, contributing to the complexity of solving the Lauten Werck matter because the solutions in tablature are intricate. For each individual chord, choosing from the full roster of possibilities cost a careful examination on the positions table, continually comparing possible finger combinations, and considering the positions chosen for the preceding and following notes.

What also surely distinguishes the author of the Art of Fugue from other musicians is his undoubted mathematical genius and his deep passion for combinatorial calculus. If Bach knew the Lute well, as we believe is beyond question, it could not have escaped his notice that compositions for Lute also always represent a great opportunity to apply combinatorics: how is it possible to think that Bach did not want to play with this trait of the instrument, that he did not employ daring positions in his compositions for Lute?

Reading the passage from Madame Louise, which serves as the opening to this study, I was immediately reminded of my father, bent over for whole days in front of a table of positions similar to the one given here in §7.

Madame Louise, with her genuine words, had captured in its essence that distinctive quality that permeates all of Bach's Opera for Lute: the virtuosic-combinatory aspect aimed at lutenists of all times.

Simone Cipriani

Bach holding the 6-part Canon triplex BWV1076.

6. INTRODUCTION TO THE BASSO CONTINUO IN TABLATURE

Here we indicate a few examples of how one can begin to play the Basso Continuo in tablature on the Lauten Werck. By way of example we will use the key of F major - D minor, but in practice this is obviously irrelevant. In this key, the *movable capotasto* is set to the position: $\dot{\lambda}$ (see §7).

We have already mentioned how, by simply playing the bass line and the grades, it is virtually possible to start playing the numbered bass on the Lauten Werck without knowing the notes corresponding to the fret and without any notions of harmony. However, by fully harmonizing the bass line, one might incur in some counterpoint mistakes, such as a parallel fifth ($V^{(3\backslash 5)} - I^{(3\backslash 5)}$). However, these mistakes can easily be addressed with a 'positional' approach relative to the grades: once the correct positions have been learned, these are repeated with the same scheme on all keys. To begin with, we do not distinguish the *mode* of the key, always considering it as *minor* by altering the *leading note* if necessary (as happens with key signatures): the bass is already numbered and so this is not a problem. It is sufficient to memorize the two *magenta*-colored paths, plus the supporting *cyan* one: these paths are the same for each key.

Let us begin by considering the octave present on the 7th-6th-5th-4th strings.

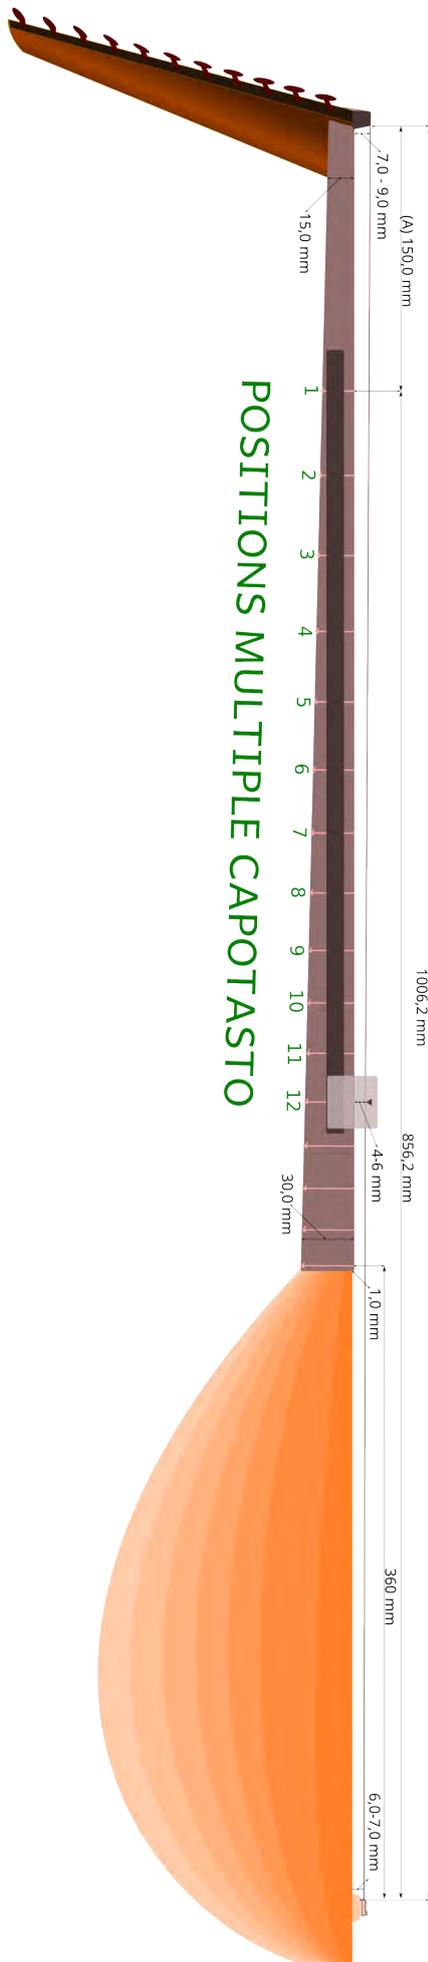

Grades VI, I, III of the scale are along the lowest magenta path, and grades V, VII, II, IV on the highest. The first few times it may help to write the grade of some of the bass notes on the sheet music. You can also attach a paper tape indicating the magenta and cyan paths and grades on the fretboard until we memorize them— this way it will become quite easy to play a basso continuo at first sight.

Once the *grade* of the bass is identified and played, if the chord is in the fundamental state (i.e., the numbered bass is made up of odd numbers) we continue playing along the same line (in order we play: 3-5-7), if it is in inverted (i.e., in presence of even numbers) we move to the lowest line (in order to play: 2-4-6). For example, a classic $3\backslash 5\backslash 6$ is played by executing: bass note + (*on the same line*) 3 + 5 + (*change line*) 6, a combination that is achieved by simply plucking the strings downwards, towards the treble, fingering along the indicated paths. Obviously after some time some positions will become automatic, since they are repeated in the exact same way for all keys. For the lower octave it is even simpler: once we have played the bass note, we return to the higher octave and continue as before. In the higher octave the pattern is identical, only we have to arrange differently for the very high notes of the lowest keys on the fretboard. It is therefore advisable to start with keys higher up on the fretboard, such as *D minor-F major* or *E minor-G major*.

When an altered note appears in the bass (or in the basso-continuo numbers), this is done by simply moving one position above (\sharp) or below (\flat) on the indicated colored lines.

Pasvegliare in the lower bass notes requires knowing the notes present on the 7th string, to play them "in fila" (that is to say, all on the same string); or knowing the notes in the area outlined in red to play them "a campanella" (same left hand position and playing on different strings).

8. CONSTRUCTION NOTES FOR THE LAUTEN WERCK

We report here the construction details employed by us in making the instrument. Dimensions and measures are only meant to be a practical point of reference, and are here suggested simply in virtue of their good performance on the instrument.

- The instrument responds best if the strings are well tensioned, so preferably use large diameter strings.
- For clean sounds always play in the traditional position, that is, rather close to the bridge.
- Leave an extra 150mm of free space on the neck between the nut and the lowest fret (A), so as not to create excessive strain on the strings when fingering the rearmost frets.
- Build the side of the neck flat, facing the performer, so as to facilitate attachment of the mechanics.
- Leave deep accommodation for the nut so it can be shimmed to establish the correct height.
- Traditional gut strings (in our case cordedrago.it) perform better than modern ones.
- The strings under the movable capotasto leave an Action (a gap) of 4.0-6.0mm, so the holes on the bridge are about 6.0 to 7.0mm from the soundboard.
- The capo that stops the strings consists of a brass bar with an 8×4mm cross section.
- The brass rail has two attachment points to the neck, and has dimensions 25×500mm with cross section 3mm. It has to run parallel to the first string.
- The adjustment block allows you to change both the height of the bar in relation to the neck, and the angles: it should allow you to rotate to the right/left, and raise or lower the tip, so that it is positioned correctly, that is, parallel to the frets and plane of the neck.

MUSIC TABLATURES

Notes to the drafting in tablature

The tablature given here includes only the Suite in E minor BWV996 and the Partita in E major BWV1006a.

The position of the *movable capotasto* is not given, as it is consistent with the key of the collection. In the tablature, the open strings, regardless of where the movable capotasto comes from, are defined with the character α . From here the letters are developed in the traditional way going down the neck ($\sigma, \nu, \rho, \epsilon, \dots$), while for the negative frets, going up towards the nut, the letters are

			ϵ
			σ
			ν
			ρ
			ϵ
			α
			σ
			ν
			ρ
			ϵ

Movable capotasto position for E minor

marked backward and in red: $\sigma, \nu, \rho, \epsilon, \dots$

The position in α can be fingered, if there is a barré placed further back than the empty position; again the position is marked in red: α

The last section shows the music in modern notation with double staff, so that the original music can be easily verified.

The tablature should be understood as an exemplification of the thesis set forth, as a simple demonstration of the actual performance possibilities of the instrument, so it can be fussy and redundant in some places; for example, in the Allemande of the E minor BWV996 almost all the theoretical doubling (see the picture below) of the various voices is performed; moreover, all the tenutos are always retained as they were originally written by the author.

A few clearly 'formal' tenutos are sometimes found, as in bar 13 of the Sarabande in E minor BWV996; in these situations virtual tenutos are indicated with a dotted line.

The good rule of never touching the strings virtually engaged in the tenuto to let them vibrate is always respected.

Sarabande

Musical score for Sarabande, measures 1-22. The score is written for a grand staff (treble and bass clefs) with a 3/4 time signature. The melody is primarily in the treble clef, with a bass line in the bass clef. The score includes various musical notations such as notes, rests, slurs, and dynamic markings (f, ff, mf). Red annotations highlight specific notes and slurs. Measure numbers 1, 5, 9, 13, 17, and 22 are indicated on the left side of the score.

Bourée

The image displays a musical score for a piece titled "Bourée". It consists of two staves of music, with measures numbered 1 through 22. The notation includes various musical symbols such as notes, rests, slurs, accents, and dynamic markings. The first staff begins with a treble clef and a common time signature (C). The music is written in a style that suggests a Baroque or Classical era. The second staff starts at measure 5. The score includes several measures with slurs and accents, and a double bar line with repeat dots at measure 10. The notation is detailed, with many notes and rests marked with red accents and slurs. The piece concludes with a double bar line and repeat dots at measure 22.

Loure

The musical score for "Loure" is presented in a system of eight staves. The top staff is the vocal line, and the subsequent seven staves are the piano accompaniment. The score includes various musical notations such as dynamics (p, f, ff, tr), articulation (accents, slurs), and ornaments (trills). The piece concludes with a double bar line and repeat dots.

Gavotte en rondeau

The musical score for "Gavotte en rondeau" consists of a single melodic line on a grand staff. The piece is in 3/4 time and features a variety of dynamics and articulations. The notation includes slurs, accents, and dynamic markings such as *f*, *h*, and *ff*. The score is divided into measures, with measure numbers 5, 11, 15, 20, 26, 30, and 34 indicated. The melody is characterized by its rhythmic patterns and the use of slurs to connect notes across measures. The piece concludes with a final cadence in the 34th measure.

Menuett I

Musical score for Menuett I, measures 1-28. The score is written for two staves in 3/4 time. It features a melody in the upper staff and a bass line in the lower staff. The music includes various dynamics such as *f*, *ff*, and *sf*, and articulation marks like accents and slurs. A repeat sign is present at measure 7. The piece concludes with a double bar line and a fermata at measure 28.

Menuett II

Musical score for Menuett II, measures 1-6. The score is written for two staves in 3/4 time. It features a melody in the upper staff and a bass line in the lower staff. The music includes various dynamics such as *sf* and *f*, and articulation marks like accents and slurs. A repeat sign is present at measure 5. The piece concludes with a double bar line and a fermata at measure 6.

MODERN NOTATION

The following complete collection of works for Lauten Werk mirrors that reported in our father's publication.

FONTI

Autografi in notazione moderna di J. S. Bach:

1. Partita in Mi maggiore BWV 1006a: priva di intestazione; 13 pagine; formato 35x21 cm. Proprietà di: Musashino College of Music, Hazawa Nerimaku, Tokyo; Littera rara vol. 2-14.
2. Suite in Sol minore BWV 995: «Pièces pour la Luth à Monsieur Schouster par J. S. Bach»; titolo interno: «Suite pour la Luth par J. S. Bach»; 10 pagine; formato 35x22 cm. Proprietà di: Bibliothèque Royale Albert Ier, Bruxelles; Ms II 4085 (Fétis Ms 2910).
3. Preludio, Fuga e Allegro in Mi^b maggiore BWV 998: «Prelude pour la Luth. ò Cèmbal par J. S. Bach»; 4 pagine; formato 34,5x21,4 cm. Proprietà di: Ueno Gakuen College of Music, Higashi-Ueno Taitoku, Tokyo.

Manoscritti in notazione moderna del XVIII secolo:

1. Suite in Mi minore BWV 996: testo scritto da J. Gottfried Walther (1684-1748) «Praeludio con la Suite da Gio. Bast. Bach»; l'indicazione in copertina «aufs Lauten Werk» è di Tobias Krebs (1690-1762). Proprietà di: Staatsbibliothek Preussischer Kulturbesitz, Musikabteilung, Berlin-Dahlem; Mus ms P 801, pagine 385-395.
2. Partita in Do minore BWV 997: «Praludum e Fuga. Per il Clavicembalo. dal Joh. Seb. Bach»; titolo interno: «Suite del Joh. Seb. Bach». Proprietà di: Staatsbibliothek Preussischer Kulturbesitz, Musikabteilung, Berlin-Dahlem; Mus ms P 286, n° 8, 13 pagine.
Presso la stessa Staatsbibliothek ci sono ben altri quattro manoscritti:
A) Mus ms P 218: nessuna intestazione; pagine 22-31.
B) Mus ms P 308: nessuna intestazione; pagine 1-17.
C) Mus ms P 413: «G. S. Bach Sonata C moll»; titolo interno: «Sonata per il Clavicembalo del Sig.re Giovanni Sebastiano Bach»; pagine 1-9 più copertina.
D) Mus ms P 650: «C moll Praludium, Fuge Sarabande und Gigue für Clavier von J. S. Bach»; 10 pagine.
3. Preludio in Do minore BWV 999: testo scritto da J. Peter Kellner (1705 - 1772): «Praelude in C mol pour la Lute di Johann Sebastian Bach»; titolo interno: «Praelude pour la Lute». Proprietà di: Staatsbibliothek Preussischer Kulturbesitz, Musikabteilung, Berlin-Dahlem; Mus ms P 804, pagine 101-103.
- 4a. Partita in Mi maggiore BWV 1006a: priva di intestazione; 13 pagine. Proprietà di: Staatsbibliothek Preussischer Kulturbesitz, Musikabteilung, Berlin-Dahlem; Mus ms P 641.
- 5a. Suite in La minore: versione per clavicembalo della Suite in Mi minore; «Preludio con la Suite»; pagine 10. Proprietà di: Bibliothèque Royale Albert Ier, Bruxelles; Ms II 4093 (Fétis 2960), n° 15.

Manoscritti in intavolatura francese del XVIII secolo per liuto in Re minore.

1. Suite in Sol minore BWV 995: «g mol. Pieces pour le lut»; titolo interno: «g mol Pieces pour le lut par Sre J. S. Bach»; pagine 1-20. Proprietà di: Musikbibliothek der Stadt Leipzig, Leipzig; Becker III. 11. 3.
2. Fuga in Sol minore BWV 1000: «g moll Fuga del Signore Bach»; pagine 1-4. Proprietà di: Musikbibliothek der Stadt Leipzig, Leipzig; Becker III. 11. 4.
3. Partita in Do minore BWV 997: «C moll Partita al Liuto Composta dal Sig.re Bach»; pagine 1-8. Proprietà di: Musikbibliothek der Stadt Leipzig, Leipzig; Becker III. 11. 5; tre soli movimenti: Fantasia, Sarabande, Giga.

SUITE IN MI MINORE (BWV996)

Praeludio

Passaggio

5

10

Musical score system 1, measures 1-15. The piece is in G major and 3/8 time. It features a treble and bass clef. The right hand has a melodic line with grace notes and slurs, while the left hand provides a harmonic accompaniment with chords and moving lines. Measure numbers 15 and 20 are indicated.

Musical score system 2, measures 16-25. The tempo is marked *Presto*. The right hand continues with a melodic line, and the left hand has a more active accompaniment. Measure numbers 20 and 25 are indicated.

Musical score system 3, measures 26-35. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 25 and 30 are indicated.

Musical score system 4, measures 36-45. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 30 and 35 are indicated.

Musical score system 5, measures 46-55. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 35 and 40 are indicated.

Musical score system 6, measures 56-65. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 40 and 45 are indicated.

Musical score system 7, measures 66-75. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 45 and 50 are indicated.

Musical score system 8, measures 76-85. The right hand has a melodic line with slurs, and the left hand has a rhythmic accompaniment. Measure numbers 50 and 55 are indicated.

60

65

70

This section contains three systems of piano accompaniment. Each system consists of a grand staff with a treble clef and a bass clef. The music is in a key with one sharp (F#) and a common time signature. The first system starts at measure 60, the second at measure 65, and the third at measure 70. The notation includes various rhythmic patterns, including eighth and sixteenth notes, and rests.

Allemande

5

This section contains four systems of piano accompaniment for the piece 'Allemande'. Each system consists of a grand staff with a treble clef and a bass clef. The music is in a key with one sharp (F#) and a common time signature. The first system starts at measure 5. The notation includes various rhythmic patterns, including eighth and sixteenth notes, and rests.

10

The first system of music consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. Both are in G major. The music begins with a repeat sign. The upper staff contains a melodic line with eighth and sixteenth notes. The lower staff provides a harmonic accompaniment with chords and moving lines.

The second system continues the piece with two staves. The upper staff features a melodic line with eighth notes and rests. The lower staff continues the accompaniment with a steady eighth-note pattern.

The third system consists of two staves. The upper staff has a melodic line with eighth notes and some grace notes. The lower staff continues the accompaniment with a consistent eighth-note rhythm.

15

The fourth system consists of two staves. The upper staff has a melodic line with eighth notes and some grace notes. The lower staff continues the accompaniment with a consistent eighth-note rhythm.

The fifth system consists of two staves. The upper staff has a melodic line with eighth notes and some grace notes. The lower staff continues the accompaniment with a consistent eighth-note rhythm. The system ends with a double bar line and repeat dots.

Courante

3

The first system of 'Courante' consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. Both are in G major. The music is in 3/8 time. The upper staff has a melodic line with eighth notes and rests. The lower staff provides a harmonic accompaniment with chords and moving lines.

5

The second system of 'Courante' consists of two staves. The upper staff has a melodic line with eighth notes and rests. The lower staff provides a harmonic accompaniment with chords and moving lines. The system ends with a double bar line and repeat dots.

Musical score for a piece in G major, measures 1-20. The score is written for piano and consists of five systems of two staves each (treble and bass clef). Measure numbers 10, 15, and 20 are indicated. The music features a variety of rhythmic patterns, including eighth and sixteenth notes, and rests. Trills are marked with a 'w' symbol above the notes. The key signature is one sharp (F#).

Sarabande

Musical score for a piece in G major, measures 1-5. The score is written for piano and consists of two systems of two staves each (treble and bass clef). Measure numbers 1 and 5 are indicated. The time signature is 3/2. The music features a variety of rhythmic patterns, including eighth and sixteenth notes, and rests. Trills are marked with a 'w' symbol above the notes. The key signature is one sharp (F#).

First system of a musical score in G major, 2/4 time. It consists of a treble and bass staff. The treble staff begins with a repeat sign and contains a melodic line with slurs and accents. The bass staff provides a harmonic accompaniment. A measure number '10' is placed above the treble staff.

Second system of the musical score, continuing from the first. It features similar melodic and harmonic lines. A measure number '15' is placed above the treble staff.

Third system of the musical score. The melodic line in the treble staff continues with slurs and accents. A measure number '20' is placed above the treble staff.

Fourth system of the musical score, concluding the piece with a double bar line and repeat dots. The melodic line in the treble staff ends with a fermata.

Bourrée

First system of the 'Bourrée' piece in G major, common time (C). It consists of a treble and bass staff. The treble staff has a melodic line, and the bass staff has a rhythmic accompaniment. The time signature 'C' is shown at the beginning of both staves.

Second system of the 'Bourrée' piece. The melodic and rhythmic lines continue. A measure number '5' is placed above the treble staff.

Third system of the 'Bourrée' piece, concluding with a double bar line and repeat dots. A measure number '10' is placed above the treble staff.

15

20

This section contains three systems of piano music. Each system consists of a grand staff with a treble and bass clef. The first system starts at measure 15 and ends at measure 19. The second system starts at measure 20 and ends at measure 24. The third system starts at measure 25 and ends at measure 29, concluding with a double bar line and repeat dots.

Giga

12/8

This section contains four systems of piano music, all in 12/8 time. Each system consists of a grand staff with a treble and bass clef. The first system starts at measure 1 and ends at measure 4. The second system starts at measure 5 and ends at measure 8. The third system starts at measure 9 and ends at measure 12. The fourth system starts at measure 13 and ends at measure 16.

5

The first system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 5 and 6. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 5 and 6. The music features a mix of eighth and sixteenth notes, with some rests and dynamic markings.

The second system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 7 and 8. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 7 and 8. The music continues with eighth and sixteenth notes, including some beamed sixteenth notes.

The third system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 9 and 10. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 9 and 10. The music features a mix of eighth and sixteenth notes, with some rests and dynamic markings.

The fourth system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 11 and 12. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 11 and 12. The music continues with eighth and sixteenth notes, including some beamed sixteenth notes.

The fifth system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 13 and 14. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 13 and 14. The music features a mix of eighth and sixteenth notes, with some rests and dynamic markings.

10

The sixth system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 15 and 16. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 15 and 16. The music continues with eighth and sixteenth notes, including some beamed sixteenth notes.

The seventh system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 17 and 18. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 17 and 18. The music features a mix of eighth and sixteenth notes, with some rests and dynamic markings.

The eighth system of music consists of two staves. The upper staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. It contains measures 19 and 20. The lower staff begins with a bass clef and the same key signature and time signature. It also contains measures 19 and 20. The music continues with eighth and sixteenth notes, including some beamed sixteenth notes.

First system of musical notation, measures 1-4. The piece is in G major (one sharp) and 2/4 time. The right hand features a melodic line with eighth and sixteenth notes, while the left hand provides a steady eighth-note accompaniment.

Second system of musical notation, measures 5-8. The right hand continues the melodic development with some slurs, and the left hand maintains the rhythmic accompaniment.

Third system of musical notation, measures 9-12. Measure 9 is marked with the number 15. The right hand has a more active melodic line with slurs, and the left hand continues the accompaniment.

Fourth system of musical notation, measures 13-16. The right hand features a melodic line with many slurs and rests, while the left hand continues the accompaniment.

Fifth system of musical notation, measures 17-20. The right hand has a melodic line with slurs, and the left hand continues the accompaniment.

Sixth system of musical notation, measures 21-24. The right hand has a melodic line with slurs, and the left hand continues the accompaniment.

Seventh system of musical notation, measures 25-28. The right hand has a melodic line with slurs, and the left hand continues the accompaniment.

Eighth system of musical notation, measures 29-32. Measure 29 is marked with the number 20. The right hand has a melodic line with slurs, and the left hand continues the accompaniment, ending with a double bar line and repeat dots.

PARTITA *IN MI MAGGIORE (BWV 1006a)*

Prélude

5 *p*

10 *p*

15 *p*

f

f

20

Musical notation for measures 20-22. The treble clef part features a continuous eighth-note melody in a major key with three sharps. The bass clef part is mostly silent, with a few notes appearing in measure 22.

Musical notation for measures 23-25. The treble clef part continues with the eighth-note melody. The bass clef part remains mostly silent.

25

Musical notation for measures 26-28. The treble clef part continues with the eighth-note melody. The bass clef part remains mostly silent.

30

Musical notation for measures 29-31. The treble clef part continues with the eighth-note melody. The bass clef part has some activity, including rests and notes.

Musical notation for measures 32-34. The treble clef part continues with the eighth-note melody. The bass clef part has some activity, including rests and notes.

35

Musical notation for measures 35-37. The treble clef part continues with the eighth-note melody. The bass clef part has some activity, including rests and notes.

Musical notation for measures 38-40. The treble clef part continues with the eighth-note melody. The bass clef part has some activity, including rests and notes.

40

Musical notation for measures 41-43. The treble clef part continues with the eighth-note melody. The bass clef part has some activity, including rests and notes.

45

Musical notation for measures 45-47. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The right hand plays a melody of eighth notes, and the left hand plays a bass line of eighth notes. Measure 45 starts with a piano (*p*) dynamic.

Musical notation for measures 48-50. The right hand continues the eighth-note melody. Measure 49 features a forte (*f*) dynamic, and measure 50 returns to piano (*p*).

50

Musical notation for measures 51-53. Measure 51 is marked forte (*f*), measure 52 is piano (*p*), and measure 53 is forte (*f*).

Musical notation for measures 54-56. The right hand continues the eighth-note melody, while the left hand provides a steady bass line.

55

Musical notation for measures 57-59. The right hand plays a more complex eighth-note pattern. Measure 59 ends with a fermata.

60

Musical notation for measures 60-62. The right hand continues the eighth-note melody. Measure 62 ends with a fermata.

p

Musical notation for measures 63-65. Measure 63 starts with a piano (*p*) dynamic. Measure 65 features a forte (*f*) dynamic.

65

Musical notation for measures 66-68. Measure 66 starts with a piano (*p*) dynamic. The right hand plays a melody of eighth notes, and the left hand plays a bass line of eighth notes.

First system of musical notation, measures 1-3. Treble clef, key signature of three sharps (F#, C#, G#). The right hand plays a continuous eighth-note pattern, while the left hand provides a simple harmonic accompaniment.

Second system of musical notation, measures 4-6. Measure 4 is marked with the number 70. The right hand continues with eighth-note patterns, and the left hand accompaniment remains consistent.

Third system of musical notation, measures 7-9. Measure 9 is marked with the number 75. The musical texture continues with eighth-note figures in the right hand.

Fourth system of musical notation, measures 10-12. The right hand features more complex eighth-note patterns, and the left hand accompaniment is steady.

Fifth system of musical notation, measures 13-15. Measure 13 is marked with the number 80. The right hand has a more active eighth-note line, while the left hand accompaniment is sparse.

Sixth system of musical notation, measures 16-18. The right hand continues with eighth-note patterns, and the left hand accompaniment is consistent.

Seventh system of musical notation, measures 19-21. Measure 19 is marked with the number 85. The right hand has a more active eighth-note line, and the left hand accompaniment is sparse.

Eighth system of musical notation, measures 22-24. Measure 22 is marked with the number 90. The right hand continues with eighth-note patterns, and the left hand accompaniment is consistent.

First system of a piano score in G major (one sharp). The right hand features a continuous eighth-note melody, while the left hand provides a simple harmonic accompaniment with quarter notes and rests.

Second system of the piano score, starting at measure 95. The right hand continues with eighth-note patterns, and the left hand maintains its accompaniment.

Third system of the piano score. The right hand's melody continues with eighth-note runs, and the left hand accompaniment remains consistent.

Fourth system of the piano score, starting at measure 100. The right hand features more complex eighth-note patterns, and the left hand accompaniment continues.

Fifth system of the piano score, starting at measure 105. The right hand has a more active eighth-note line, and the left hand accompaniment continues.

Sixth system of the piano score. The right hand continues with eighth-note patterns, and the left hand accompaniment continues.

Seventh system of the piano score, starting at measure 110. The right hand features eighth-note patterns, and the left hand accompaniment continues.

Eighth system of the piano score. The right hand continues with eighth-note patterns, and the left hand accompaniment continues.

115

Musical notation for measures 115-117. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps (F#, C#, G#). The music features a complex rhythmic pattern with sixteenth and thirty-second notes in the right hand, and a bass line with quarter and eighth notes in the left hand.

120

Musical notation for measures 118-120. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The music continues with intricate rhythmic patterns, including a prominent sixteenth-note figure in the right hand.

Musical notation for measures 121-123. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The right hand features a continuous sixteenth-note pattern, while the left hand provides a steady accompaniment.

125

Musical notation for measures 124-126. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The right hand continues with a sixteenth-note texture, and the left hand has a more active role with eighth-note patterns.

Musical notation for measures 127-129. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The right hand shows a melodic line with sixteenth-note runs, and the left hand has a bass line with quarter notes.

130

Musical notation for measures 130-132. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The right hand features a sixteenth-note pattern, and the left hand has a bass line with quarter notes.

135

tr

Musical notation for measures 133-135. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. Measure 135 includes a trill (tr) in the right hand. The left hand has a bass line with quarter notes.

Musical notation for measures 136-138. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has three sharps. The right hand features a sixteenth-note pattern, and the left hand has a bass line with quarter notes.

Loure

The first system of the piece 'Loure' is written in treble and bass clefs. The key signature is three sharps (F#, C#, G#) and the time signature is 6/8. The melody in the treble clef begins with a quarter note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment starts with a whole rest, followed by a quarter note G2, and then a series of eighth notes: A2, B2, C3, D3, E3, F3, G3, A3, B3, C4.

The second system continues the piece. The treble clef melody features a half note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment consists of a series of eighth notes: G2, A2, B2, C3, D3, E3, F3, G3, A3, B3, C4.

The third system of the piece. The treble clef melody starts with a quarter note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment features a series of eighth notes: G2, A2, B2, C3, D3, E3, F3, G3, A3, B3, C4.

The fourth system of the piece. The treble clef melody begins with a quarter note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment starts with a quarter note G2, followed by eighth notes A2, B2, and C3. A repeat sign is present at the end of the system.

The fifth system of the piece. The treble clef melody features a half note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment consists of a series of eighth notes: G2, A2, B2, C3, D3, E3, F3, G3, A3, B3, C4.

The sixth system of the piece. The treble clef melody starts with a quarter note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment features a series of eighth notes: G2, A2, B2, C3, D3, E3, F3, G3, A3, B3, C4.

The seventh and final system of the piece. The treble clef melody begins with a quarter note G4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the eighth notes B4 and C5. The bass clef accompaniment starts with a quarter note G2, followed by eighth notes A2, B2, and C3. The piece concludes with a final chord in the bass clef.

Gavotte en Rondeau

The first system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music begins with a treble clef and a common time signature. The melody in the treble staff starts with a quarter note G4, followed by eighth notes A4, B4, and C5. The bass staff provides a simple accompaniment with quarter notes.

The second system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the first system. A measure rest is indicated by a '5' above the treble staff. A repeat sign is present, with a first ending bracketed and a '10' above the final measure. The melody in the treble staff features eighth and sixteenth notes.

The third system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the second system. The melody in the treble staff features eighth and sixteenth notes, with some slurs. The bass staff continues with a simple accompaniment.

The fourth system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the third system. A measure rest is indicated by a '15' above the treble staff. The melody in the treble staff features eighth and sixteenth notes, with some slurs. The bass staff continues with a simple accompaniment.

The fifth system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the fourth system. A measure rest is indicated by a '20' above the treble staff. A measure rest is also indicated by a '25' above the treble staff. The melody in the treble staff features eighth and sixteenth notes, with some slurs. The bass staff continues with a simple accompaniment.

The sixth system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the fifth system. The melody in the treble staff features eighth and sixteenth notes, with some slurs. The bass staff continues with a simple accompaniment.

The seventh system of the score consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The music continues from the sixth system. A measure rest is indicated by a '30' above the treble staff. The melody in the treble staff features eighth and sixteenth notes, with some slurs. The bass staff continues with a simple accompaniment.

70

Musical score for measures 75-79. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The piece is in a major mode. Measure 75 starts with a treble clef and a 7-measure rest. The melody begins in measure 76 with a quarter note G#4, followed by eighth notes A4, B4, and C5. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score for measures 80-84. Measure 80 starts with a treble clef and a 2-measure rest. The melody begins in measure 81 with a quarter note G#4, followed by eighth notes A4, B4, and C5. A trill (tr) is indicated over the final note of measure 84. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score for measures 85-89. Measure 85 starts with a treble clef and a 2-measure rest. The melody begins in measure 86 with a quarter note G#4, followed by eighth notes A4, B4, and C5. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score for measures 90-94. Measure 90 starts with a treble clef and a 2-measure rest. The melody begins in measure 91 with a quarter note G#4, followed by eighth notes A4, B4, and C5. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score for measures 95-100. Measure 95 starts with a treble clef and a 2-measure rest. The melody begins in measure 96 with a quarter note G#4, followed by eighth notes A4, B4, and C5. Measure 100 ends with a double bar line and a fermata. The bass line consists of quarter notes G#2, C3, and F#3.

Menuett I

Musical score for measures 1-4. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The piece is in a major mode. Measure 1 starts with a treble clef and a 2-measure rest. The melody begins in measure 2 with a quarter note G#4, followed by eighth notes A4, B4, and C5. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score for measures 5-10. Measure 5 starts with a treble clef and a 2-measure rest. The melody begins in measure 6 with a quarter note G#4, followed by eighth notes A4, B4, and C5. Measure 10 ends with a double bar line and a fermata. The bass line consists of quarter notes G#2, C3, and F#3.

Musical score system 1, measures 15-20. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 15 starts with a treble clef and a bass clef. A trill (tr) is indicated above the first note of measure 17. Measure 20 ends with a double bar line.

Musical score system 2, measures 21-26. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 25 is marked with a measure rest.

Musical score system 3, measures 27-32. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 30 is marked with a measure rest. The system concludes with a double bar line and repeat dots.

Menuett II

Musical score system 4, measures 1-5. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 5 is marked with a measure rest.

Musical score system 5, measures 6-10. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 10 is marked with a measure rest.

Musical score system 6, measures 11-15. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 15 is marked with a measure rest. The system concludes with a double bar line and repeat dots.

Musical score system 7, measures 16-20. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. Measure 20 is marked with a measure rest. The system concludes with a double bar line and repeat dots.

Musical score for the first system, measures 25-29. The key signature is three sharps (F#, C#, G#) and the time signature is 2/4. The right hand features a melodic line with eighth and sixteenth notes, while the left hand provides a harmonic accompaniment with chords and single notes.

Musical score for the second system, measures 30-34. The right hand continues the melodic line, ending with a fermata. The left hand accompaniment remains consistent with the previous system.

Bourrée

Musical score for the first system of the Bourrée, measures 1-4. The key signature is three sharps and the time signature is 2/4. The right hand has a rhythmic melody, and the left hand has a steady accompaniment.

Musical score for the second system of the Bourrée, measures 5-8. The right hand features a melodic line with a *p* (piano) dynamic marking. The left hand accompaniment continues.

Musical score for the third system of the Bourrée, measures 9-12. The right hand starts with a *f* (forte) dynamic marking, followed by a *p* marking. The left hand accompaniment is consistent.

Musical score for the fourth system of the Bourrée, measures 13-16. The right hand continues with a *f* dynamic marking. The left hand accompaniment remains steady.

Musical score for the fifth system of the Bourrée, measures 17-20. The right hand features a melodic line with a fermata at the end. The left hand accompaniment concludes the piece.

First system of a musical score in G major (three sharps) and 3/8 time. The right hand features a melodic line with eighth-note patterns and slurs, while the left hand provides a simple harmonic accompaniment with quarter notes.

Second system of the musical score, starting at measure 25. The right hand continues the melodic development with more complex rhythmic patterns, including sixteenth notes and slurs. The left hand accompaniment remains consistent.

Third system of the musical score, starting at measure 30. The right hand features a prominent melodic line with slurs and eighth-note runs. The left hand accompaniment continues to support the melody.

Fourth system of the musical score, starting at measure 35. The right hand concludes the piece with a final melodic phrase. The left hand accompaniment ends with a few final notes. The system concludes with a double bar line and repeat dots.

Gigue

First system of the 'Gigue' piece in G major (three sharps) and 6/8 time. The right hand has a melodic line with eighth-note patterns, and the left hand has a rhythmic accompaniment with eighth notes and rests.

Second system of the 'Gigue' piece, starting at measure 5. The right hand continues the melodic line, and the left hand accompaniment features a steady eighth-note pattern. A dynamic marking of *p* (piano) is present in the right hand.

Third system of the 'Gigue' piece. The right hand features a melodic line with eighth-note patterns and slurs. The left hand accompaniment continues with eighth notes. A dynamic marking of *f* (forte) is present in the right hand.

10

Musical notation for measures 10-12. The piece is in 3/4 time with a key signature of three sharps (F#, C#, G#). Measure 10 features a treble clef with a quarter note G#4, followed by eighth notes A4, B4, C5, B4, A4, G#4. The bass clef has a quarter note G2, followed by eighth notes A2, B2, C3, B2, A2, G#2. Measure 11 continues with eighth notes in the treble and quarter notes in the bass. Measure 12 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

15

Musical notation for measures 13-15. Measure 13 has a treble clef with a quarter note G#4 and a bass clef with a quarter note G2. Measure 14 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 15 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

Musical notation for measures 16-18. Measure 16 has a treble clef with a quarter note G#4 and a bass clef with a quarter note G2. Measure 17 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 18 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

20

Musical notation for measures 19-21. Measure 19 has a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2. Measure 20 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 21 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

Musical notation for measures 22-24. Measure 22 has a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2. Measure 23 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 24 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

25

Musical notation for measures 25-27. Measure 25 has a treble clef with a quarter note G#4 and a bass clef with a quarter note G2. Measure 26 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 27 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

Musical notation for measures 28-30. Measure 28 has a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2. Measure 29 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 30 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

30

Musical notation for measures 31-33. Measure 31 has a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2. Measure 32 features a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with eighth notes G2, F#2, E2, D2. Measure 33 shows a treble clef with eighth notes A4, B4, C5, B4, A4, G#4 and a bass clef with quarter notes G2, F#2, E2, D2.

SUITE *IN SOL MINORE (BWV 995)*

Prélude

The musical score for the Prelude in G minor, BWV 995, is presented in six systems. Each system consists of a grand staff with a treble and bass clef. The time signature is 12/8. The key signature is two flats (B-flat and E-flat). The piece begins with a triplet in the right hand and a descending eighth-note pattern in the left hand. The score includes various musical notations such as slurs, trills (tr), and measure numbers (5, 10, 15). The piece concludes with a final cadence in the right hand.

20

Musical notation for measures 20-22. The piece is in B-flat major and 3/8 time. Measure 20 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 21 continues the melodic and bass lines. Measure 22 shows a continuation of the eighth-note patterns.

Musical notation for measures 23-24. The piece continues in B-flat major and 3/8 time. Measure 23 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 24 continues the melodic and bass lines.

25

Musical notation for measures 25-27. The piece continues in B-flat major and 3/8 time. Measure 25 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 26 continues the melodic and bass lines. Measure 27 shows a continuation of the eighth-note patterns.

30

Très Viste

Musical notation for measures 30-32. The piece continues in B-flat major and 3/8 time. Measure 30 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 31 continues the melodic and bass lines. Measure 32 shows a continuation of the eighth-note patterns, ending with a trill (tr) in the treble clef.

35

Musical notation for measures 35-37. The piece continues in B-flat major and 3/8 time. Measure 35 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 36 continues the melodic and bass lines. Measure 37 shows a continuation of the eighth-note patterns.

40

Musical notation for measures 40-42. The piece continues in B-flat major and 3/8 time. Measure 40 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 41 continues the melodic and bass lines. Measure 42 shows a continuation of the eighth-note patterns.

45

50

Musical notation for measures 45-50. The piece continues in B-flat major and 3/8 time. Measure 45 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 46 continues the melodic and bass lines. Measure 47 shows a continuation of the eighth-note patterns. Measure 48 continues the melodic and bass lines. Measure 49 shows a continuation of the eighth-note patterns. Measure 50 shows a continuation of the eighth-note patterns.

55

Musical notation for measures 55-57. The piece continues in B-flat major and 3/8 time. Measure 55 features a treble clef with a melodic line of eighth notes and a bass clef with a bass line of eighth notes. Measure 56 continues the melodic and bass lines. Measure 57 shows a continuation of the eighth-note patterns.

135

140

Musical notation for measures 140-144. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). The music features a steady eighth-note accompaniment in the bass and a more active melody in the treble.

145

Musical notation for measures 145-149. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

150

Musical notation for measures 150-154. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 154 ends with a fermata over a half note.

155

160

Musical notation for measures 160-164. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

160

165

Musical notation for measures 165-169. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

165

170

Musical notation for measures 170-174. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

170

175

Musical notation for measures 175-179. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

175

180

Musical notation for measures 180-184. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. The melody continues with eighth-note patterns.

180

185

Measures 185-189: The right hand plays a melodic line with eighth and sixteenth notes, while the left hand provides a steady bass accompaniment with quarter notes and rests.

190

Measures 190-194: The right hand continues the melodic development with more complex rhythmic patterns, and the left hand maintains the accompaniment.

195

Measures 195-199: The right hand features a series of sixteenth-note runs, and the left hand continues with quarter-note accompaniment.

200

Measures 200-204: The right hand has a more active melodic line with frequent sixteenth notes, while the left hand provides a consistent bass line.

205

Measures 205-209: The right hand plays a melodic line with some rests, and the left hand continues the accompaniment.

210

Measures 210-214: The right hand has a melodic line with eighth notes, and the left hand provides a steady bass accompaniment.

215

Measures 215-219: The right hand continues the melodic development with eighth notes, and the left hand maintains the accompaniment.

220

Measures 220-224: The right hand has a melodic line with some rests, and the left hand continues the accompaniment. The piece concludes with a final chord in the right hand.

Allemande

First system of musical notation, measures 1-4. The piece is in G minor (two flats) and 3/4 time. The right hand features a melodic line with a trill (tr) in measure 3. The left hand provides a steady accompaniment.

Second system of musical notation, measures 5-8. Measure 5 is marked with a '5' above the staff. The right hand continues with a melodic line, and the left hand maintains the accompaniment.

Third system of musical notation, measures 9-12. A trill (tr) is marked above the right hand in measure 9. The melodic line continues with eighth-note patterns.

Fourth system of musical notation, measures 13-16. Measure 13 is marked with a '10' above the staff. The right hand features a trill (tr) in measure 15. The left hand continues with the accompaniment.

Fifth system of musical notation, measures 17-20. Measure 17 is marked with a '15' above the staff. Trills (tr) are marked above the right hand in measures 17 and 19. The piece concludes with a double bar line and repeat signs.

Sixth system of musical notation, measures 21-24. Measure 21 is marked with a '20' above the staff. A trill (tr) is marked above the right hand in measure 23. The piece concludes with a double bar line and repeat signs.

Seventh system of musical notation, measures 25-28. A trill (tr) is marked above the right hand in measure 27. The piece concludes with a double bar line and repeat signs.

25 *tr*

First system of a musical score in G minor, 3/4 time. It consists of two staves: a treble staff and a bass staff. The treble staff begins with a measure containing a whole note chord (G3, Bb3, D4) and a fermata. The bass staff has a continuous eighth-note accompaniment. Measure 25 is marked with a measure rest in the treble and a half note G3 in the bass. Measure 26 features a trill (tr) on the treble staff. Measure 27 continues the trill and includes a fermata.

tr

Second system of the musical score. The treble staff continues the trill (tr) from the previous system. The bass staff has a half note G3 in the first measure, followed by a measure rest, and then a half note G3 in the third measure.

30

Third system of the musical score. The treble staff has a measure rest in the first measure, followed by a half note G3 in the bass. The treble staff then has a half note G3 in the second measure, followed by a measure rest. The bass staff has a half note G3 in the second measure, followed by a measure rest.

35 *tr*

Fourth system of the musical score. The treble staff has a measure rest in the first measure, followed by a half note G3 in the bass. The treble staff then has a half note G3 in the second measure, followed by a measure rest. The bass staff has a half note G3 in the second measure, followed by a measure rest. Measure 35 is marked with a measure rest in the treble and a half note G3 in the bass. Measure 36 features a trill (tr) on the treble staff. Measure 37 continues the trill and includes a fermata.

Courante

Fifth system of the musical score, the beginning of the 'Courante' section. It is in G minor and 3/2 time. The treble staff has a half note G3 in the first measure, followed by a measure rest. The bass staff has a half note G3 in the first measure, followed by a measure rest. The treble staff then has a half note G3 in the second measure, followed by a measure rest. The bass staff has a half note G3 in the second measure, followed by a measure rest.

5

Sixth system of the musical score. The treble staff has a half note G3 in the first measure, followed by a measure rest. The bass staff has a half note G3 in the first measure, followed by a measure rest. The treble staff then has a half note G3 in the second measure, followed by a measure rest. The bass staff has a half note G3 in the second measure, followed by a measure rest.

Seventh system of the musical score. The treble staff has a half note G3 in the first measure, followed by a measure rest. The bass staff has a half note G3 in the first measure, followed by a measure rest. The treble staff then has a half note G3 in the second measure, followed by a measure rest. The bass staff has a half note G3 in the second measure, followed by a measure rest.

10 *tr*

7

7

This system contains the first two staves of music. The upper staff begins with a treble clef, a key signature of two flats (B-flat and E-flat), and a 3/4 time signature. It starts at measure 10 and features a trill (*tr*) over a dotted quarter note. The lower staff begins with a bass clef and contains a whole note chord in the first measure, followed by a series of quarter notes.

15

This system contains the third and fourth staves of music. The upper staff continues the melodic line with a wavy hairpin (*w*) over a dotted quarter note. The lower staff continues with quarter notes and rests.

tr *tr*

This system contains the fifth and sixth staves of music. The upper staff features two trills (*tr*) over dotted quarter notes. The lower staff continues with quarter notes and rests.

tr 20 *tr*

This system contains the seventh and eighth staves of music. The upper staff features trills (*tr*) over dotted quarter notes. The lower staff continues with quarter notes and rests.

7

This system contains the ninth and tenth staves of music. The upper staff concludes with a dotted quarter note. The lower staff concludes with a dotted quarter note and a final chord.

Sarabande

5

This system contains the first two staves of the Sarabande. The upper staff begins with a treble clef, a key signature of two flats, and a 3/4 time signature. It starts at measure 5 and features a dotted quarter note followed by eighth notes. The lower staff begins with a bass clef and contains a dotted quarter note followed by eighth notes.

10

This system contains the third and fourth staves of the Sarabande. The upper staff continues with eighth notes and a dotted quarter note. The lower staff continues with eighth notes and a dotted quarter note.

Musical score for Gavotte I, measures 1-20. The score is written for piano in a key signature of two flats (B-flat and E-flat) and a common time signature (C). The first system (measures 1-5) shows a melodic line in the right hand with eighth and sixteenth notes, and a bass line with quarter and eighth notes. The second system (measures 6-10) continues the melodic development. The third system (measures 11-15) features a more active right hand with sixteenth-note patterns. The fourth system (measures 16-20) concludes the piece with a final cadence in the right hand and a sustained bass line.

Gavotte I

Musical score for Gavotte I, measures 21-40. The score continues in the same key signature and time signature. The fifth system (measures 21-25) shows a steady eighth-note melody in the right hand. The sixth system (measures 26-30) features a more rhythmic right hand with eighth-note patterns. The seventh system (measures 31-35) continues the eighth-note melody. The eighth system (measures 36-40) concludes the piece with a final cadence in the right hand and a sustained bass line.

Gavotte II en Rondeau

Musical score for *Gavotte I*. The score is written for piano in a key signature of two flats (B-flat and E-flat) and a common time signature. It consists of five systems of two staves each (treble and bass clef). Measure numbers 10, 15, and 20 are indicated at the beginning of their respective systems. The piece concludes with a double bar line and the title *Gavotte I* written in the center of the final system.

Gigue

Musical score for *Gigue*. The score is written for piano in a key signature of two flats (B-flat and E-flat) and a 3/8 time signature. It consists of two systems of two staves each (treble and bass clef). Measure numbers 5 and 10 are indicated at the beginning of their respective systems.

15 20

Musical notation for measures 15-20. The piece is in B-flat major (two flats) and 3/4 time. The right hand features a melodic line with eighth and sixteenth notes, while the left hand provides a harmonic accompaniment with chords and moving lines.

25

Musical notation for measures 25-30. A repeat sign is present at the beginning of measure 25. The right hand continues with a melodic line, and the left hand has a more active accompaniment with eighth notes.

30 35

Musical notation for measures 30-35. The right hand has a melodic line with some chromaticism, and the left hand continues with a steady accompaniment.

40

Musical notation for measures 40-45. The right hand features a melodic line with a trill-like figure, and the left hand has a simple accompaniment.

45 50

Musical notation for measures 45-50. The right hand has a melodic line with eighth notes, and the left hand has a simple accompaniment.

55 *tr*

Musical notation for measures 55-60. A trill (*tr*) is marked above the right hand in measure 55. The right hand has a melodic line with eighth notes, and the left hand has a simple accompaniment.

tr 60 65

Musical notation for measures 60-65. A trill (*tr*) is marked above the right hand in measure 60. The right hand has a melodic line with eighth notes, and the left hand has a simple accompaniment.

70

Musical notation for measures 70-75. The right hand has a melodic line with eighth notes, and the left hand has a simple accompaniment. The piece ends with a double bar line and repeat dots.

PRELUDIO, FUGA e ALLEGRO

IN MI BEMOLLE MAGGIORE (BWV 998)

Prélude

The musical score for the Prelude of the Notebook for Anna Bach, BWV 998, is presented in six systems. Each system consists of a grand staff with a treble and bass clef. The key signature is one flat (B-flat major), and the time signature is 12/8. The right hand part is a melodic line, and the left hand part is a simple harmonic accompaniment. Measure numbers 5, 10, and 15 are indicated at the start of their respective systems.

20

Musical notation for measures 18-20. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

Musical notation for measures 21-23. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

25

Musical notation for measures 24-26. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

30

Musical notation for measures 27-30. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

Musical notation for measures 31-33. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

35

Musical notation for measures 34-36. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

Musical notation for measures 37-39. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

40

Musical notation for measures 40-42. Treble clef has eighth-note patterns. Bass clef has quarter notes and rests.

Two systems of piano accompaniment. The first system consists of two staves (treble and bass clef) with a key signature of two flats and a common time signature. The second system also consists of two staves with the same key signature and time signature. A measure number '45' is written above the first staff of the second system. The music features a mix of eighth and sixteenth notes in the right hand and chords and eighth notes in the left hand.

Fuga

Two systems of musical notation for a fugue. Each system contains two staves (treble and bass clef) with a key signature of two flats and a common time signature. The first system starts with a measure number '5' above the first staff. The second system starts with a measure number '10' above the first staff. The third system starts with a measure number '15' above the first staff. The fugue is characterized by a single melodic line in the right hand and a supporting bass line in the left hand, with various rhythmic patterns and intervals.

First system of musical notation, measures 1-3. Treble clef, bass clef, key signature of two flats (B-flat, E-flat). The music features a melodic line in the treble and a supporting bass line.

Second system of musical notation, measures 4-6. Measure 4 is marked with a '20'. The melodic line continues with eighth and sixteenth notes.

Third system of musical notation, measures 7-9. Measure 9 is marked with a '25'. The bass line features a prominent eighth-note accompaniment.

Fourth system of musical notation, measures 10-12. The music continues with a consistent rhythmic pattern in both staves.

Fifth system of musical notation, measures 13-15. Measure 15 is marked with a '30'. The bass line has a more active eighth-note accompaniment.

Sixth system of musical notation, measures 16-18. The melodic line shows some chromatic movement.

Seventh system of musical notation, measures 19-21. The bass line continues with a steady eighth-note accompaniment.

Eighth system of musical notation, measures 22-24. Measure 22 is marked with a '35'. The piece concludes with a final cadence in both staves.

First system of musical notation, measures 1-2. The key signature is two flats (B-flat and E-flat). The music is written in a grand staff with a treble and bass clef. Measure 1 features a treble clef with a quarter note G4, a quarter rest, and a quarter note F4. The bass clef has a quarter note G2, a quarter note F2, and a quarter note E2. Measure 2 continues with a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Second system of musical notation, measures 3-4. Measure 3 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 4 starts at measure 40, with a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Third system of musical notation, measures 5-6. Measure 5 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 6 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Fourth system of musical notation, measures 7-8. Measure 7 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 8 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Fifth system of musical notation, measures 9-10. Measure 9 starts at measure 45, with a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 10 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Sixth system of musical notation, measures 11-12. Measure 11 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 12 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Seventh system of musical notation, measures 13-14. Measure 13 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 14 starts at measure 50, with a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

Eighth system of musical notation, measures 15-16. Measure 15 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2. Measure 16 has a treble clef of eighth notes G4, A4, Bb4, C5, Bb4, A4, G4 and a bass clef of quarter notes G2, F2, E2, D2.

First system of musical notation, consisting of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). The music features a complex melodic line in the treble clef with many sixteenth and thirty-second notes, and a simpler bass line.

Second system of musical notation, starting with a measure number of 55. The notation continues with intricate melodic patterns in the treble clef and a steady bass line.

Third system of musical notation, continuing the piece with similar melodic complexity in the treble clef.

Fourth system of musical notation, starting with a measure number of 60. The treble clef part shows a series of ascending and descending runs.

Fifth system of musical notation, featuring more rhythmic variation with some notes marked with a '7' (likely a fingering or breath mark).

Sixth system of musical notation, continuing the melodic and harmonic development.

Seventh system of musical notation, starting with a measure number of 65. The treble clef part has a more active, rhythmic feel.

Eighth system of musical notation, concluding the page with a final melodic flourish in the treble clef.

70

Musical notation for measures 70-71. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). Measure 70 features a treble staff with eighth and sixteenth notes and a bass staff with quarter notes. Measure 71 continues with similar rhythmic patterns.

Musical notation for measures 72-73. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 72 shows a treble staff with eighth notes and a bass staff with quarter notes. Measure 73 continues with similar rhythmic patterns.

75

Musical notation for measures 74-75. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 74 features a treble staff with eighth notes and a bass staff with quarter notes. Measure 75 continues with similar rhythmic patterns.

Musical notation for measures 76-77. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 76 shows a treble staff with eighth notes and a bass staff with quarter notes. Measure 77 continues with similar rhythmic patterns.

80

Musical notation for measures 78-79. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 78 features a treble staff with eighth notes and a bass staff with quarter notes. Measure 79 continues with similar rhythmic patterns.

Musical notation for measures 80-81. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 80 shows a treble staff with eighth notes and a bass staff with quarter notes. Measure 81 continues with similar rhythmic patterns.

85

Musical notation for measures 82-84. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 82 features a treble staff with eighth notes and a bass staff with quarter notes. Measure 83 and 84 continue with similar rhythmic patterns.

90

Musical notation for measures 85-89. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 85 features a treble staff with eighth notes and a bass staff with quarter notes. Measures 86-89 continue with similar rhythmic patterns.

Allegro

System 1: Measures 15-20. Treble clef, bass clef. Key signature: two flats (B-flat, E-flat). Measure numbers 15, 20 are indicated.

System 2: Measures 21-25. Treble clef, bass clef. Key signature: two flats. Measure numbers 25 is indicated.

System 3: Measures 26-30. Treble clef, bass clef. Key signature: two flats. Measure numbers 30 is indicated.

System 4: Measures 31-35. Treble clef, bass clef. Key signature: two flats. Measure numbers 35 is indicated.

System 5: Measures 36-40. Treble clef, bass clef. Key signature: two flats. Measure numbers 40 is indicated.

System 6: Measures 41-45. Treble clef, bass clef. Key signature: two flats. Measure numbers 45 is indicated. Dynamic marking *p* (piano) is present.

System 7: Measures 46-50. Treble clef, bass clef. Key signature: two flats. Measure numbers 50 is indicated. Dynamic marking *f* (forte) is present.

System 8: Measures 51-55. Treble clef, bass clef. Key signature: two flats. Measure numbers 55 is indicated.

15

Musical notation for measures 15 and 16. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). Measure 15 features a complex melodic line in the treble with many accidentals and a steady bass accompaniment. Measure 16 continues the treble melody with a similar rhythmic pattern.

Musical notation for measures 17, 18, and 19. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measures 17 and 18 show a treble melody with eighth-note patterns and a bass line with some rests. Measure 19 continues the treble melody with a similar rhythmic pattern.

20

Musical notation for measures 20 and 21. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 20 features a treble melody with eighth-note patterns and a bass line with some rests. Measure 21 continues the treble melody with a similar rhythmic pattern.

Musical notation for measures 22 and 23. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measures 22 and 23 show a treble melody with eighth-note patterns and a bass line with some rests.

25

Musical notation for measures 24 and 25. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 24 features a treble melody with eighth-note patterns and a bass line with some rests. Measure 25 continues the treble melody with a similar rhythmic pattern.

Musical notation for measures 26 and 27. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measures 26 and 27 show a treble melody with eighth-note patterns and a bass line with some rests.

Musical notation for measures 28 and 29. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measures 28 and 29 show a treble melody with eighth-note patterns and a bass line with some rests.

30

Musical notation for measures 30 and 31. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 30 features a treble melody with eighth-note patterns and a bass line with some rests. Measure 31 continues the treble melody with a similar rhythmic pattern.

First system of musical notation, featuring a treble and bass clef. The key signature has two flats (B-flat and E-flat). The melody in the treble clef includes a trill-like figure marked with a wavy line (trill) over a group of notes. The bass clef provides a simple accompaniment.

Second system of musical notation, starting at measure 35. The treble clef features a continuous eighth-note melody. The bass clef has a sparse accompaniment with occasional rests.

Third system of musical notation. The treble clef continues with a steady eighth-note pattern. The bass clef accompaniment consists of quarter notes and rests.

Fourth system of musical notation, starting at measure 40. The treble clef melody is more active, with some beamed eighth notes. The bass clef accompaniment is more rhythmic, with eighth notes.

Fifth system of musical notation. The treble clef continues with a consistent eighth-note melody. The bass clef accompaniment remains simple with quarter notes and rests.

Sixth system of musical notation. The treble clef melody is consistent. The bass clef accompaniment features a steady eighth-note pattern.

Seventh system of musical notation, starting at measure 45. The treble clef melody includes some slurs and eighth-note patterns. The bass clef accompaniment is more complex, with eighth notes and some ties.

Eighth system of musical notation. The treble clef melody continues with eighth notes and slurs. The bass clef accompaniment is consistent with the previous systems.

First system of a musical score in B-flat major, 3/4 time. The treble clef part features a melodic line with eighth and sixteenth notes, while the bass clef part provides a steady accompaniment. A measure number '50' is positioned above the second measure of the treble staff.

Second system of the musical score, continuing the melodic and accompanimental lines from the first system.

Third system of the musical score, concluding with a double bar line. A measure number '55' is positioned above the second measure of the treble staff.

Fuga

First system of the 'Fuga' section, marked in 6/8 time. The treble clef part begins with a rhythmic motif, and the bass clef part provides a harmonic accompaniment.

Second system of the 'Fuga' section, with a measure number '5' above the first measure of the treble staff.

Third system of the 'Fuga' section, with a measure number '10' above the first measure of the treble staff.

Fourth system of the 'Fuga' section, with a measure number '15' above the first measure of the treble staff.

50

Musical notation for measures 50-52. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). Measure 50 starts with a half note G2 in the bass and a half note G4 in the treble. The piece continues with eighth and sixteenth notes in both staves.

Musical notation for measures 53-55. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). The music continues with eighth and sixteenth notes in both staves.

55

Musical notation for measures 56-58. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). Measure 56 starts with a half note G2 in the bass and a half note G4 in the treble. The piece continues with eighth and sixteenth notes in both staves.

60

Musical notation for measures 61-63. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). Measure 61 starts with a half note G2 in the bass and a half note G4 in the treble. The piece continues with eighth and sixteenth notes in both staves.

Musical notation for measures 64-66. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). The music continues with eighth and sixteenth notes in both staves.

65

Musical notation for measures 67-69. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). Measure 67 starts with a half note G2 in the bass and a half note G4 in the treble. The piece continues with eighth and sixteenth notes in both staves.

Musical notation for measures 70-72. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). The music continues with eighth and sixteenth notes in both staves.

70

Musical notation for measures 73-75. The system consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat). Measure 73 starts with a half note G2 in the bass and a half note G4 in the treble. The piece continues with eighth and sixteenth notes in both staves.

75

Musical notation for measures 75-77. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). Measure 75 features a treble staff with a sequence of eighth notes and a bass staff with a sequence of eighth notes. Measure 76 continues the eighth-note patterns in both staves. Measure 77 shows a change in the treble staff with a dotted quarter note followed by an eighth note, while the bass staff continues with eighth notes.

Musical notation for measures 78-80. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 78 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 79 continues with similar patterns. Measure 80 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

80

Musical notation for measures 81-83. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 81 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 82 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 83 shows a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

Musical notation for measures 84-86. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 84 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 85 continues with similar patterns. Measure 86 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

85

Musical notation for measures 87-89. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 87 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 88 continues with similar patterns. Measure 89 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

90

Musical notation for measures 91-93. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 91 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 92 continues with similar patterns. Measure 93 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

Musical notation for measures 94-96. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 94 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 95 continues with similar patterns. Measure 96 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

95

Musical notation for measures 97-99. The system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats. Measure 97 has a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes. Measure 98 continues with similar patterns. Measure 99 features a treble staff with a dotted quarter note and an eighth note, and a bass staff with eighth notes.

First system of musical notation, consisting of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The key signature has two flats (B-flat and E-flat). The music features a steady eighth-note accompaniment in the bass and a melody in the treble.

Second system of musical notation, starting at measure 100. The treble staff contains a melodic line with some slurs, while the bass staff continues with a rhythmic accompaniment.

Third system of musical notation, starting at measure 105. The treble staff shows a more active melodic line with slurs, and the bass staff has a simpler accompaniment.

Fourth system of musical notation. The treble staff has a melodic line with some rests, and the bass staff features a consistent eighth-note accompaniment.

Fifth system of musical notation, starting at measure 110. The treble staff has a melodic line with some slurs, and the bass staff continues with a rhythmic accompaniment.

Sixth system of musical notation, starting at measure 115. The treble staff has a melodic line with slurs, and the bass staff has a rhythmic accompaniment.

Seventh system of musical notation, starting at measure 120. The treble staff has a melodic line with slurs, and the bass staff has a rhythmic accompaniment.

Eighth system of musical notation. The treble staff has a melodic line with slurs, and the bass staff has a rhythmic accompaniment.

Sarabande

The musical score for the Sarabande is written in B-flat major (two flats) and 3/4 time. It consists of seven systems of music, each with a piano (p) part in the upper staff and a harpsichord (c) part in the lower staff. The piece begins with a piano introduction and features a variety of rhythmic patterns, including eighth and sixteenth notes, and rests. Measure numbers 5, 10, 15, and 20 are clearly marked. A first ending (1.) and second ending (2.) are provided for the final section of the piece, which concludes with a cadence.

Musical score for a piece in B-flat major, measures 25-30. The score is written for piano in a grand staff (treble and bass clefs). Measure 25 is marked with a '25' above the treble clef. Measure 30 is marked with a '30' above the treble clef. The piece concludes with two endings, labeled '1.' and '2.', both marked with repeat signs.

Gigue

Musical score for a Gigue in B-flat major, measures 1-15. The score is written for piano in a grand staff (treble and bass clefs). The time signature is 6/8. Measure 1 is marked with a '1' above the treble clef. Measure 5 is marked with a '5' above the treble clef. Measure 10 is marked with a '10' above the treble clef. Measure 15 is marked with a '15' above the treble clef. The piece includes trills, indicated by 'tr' above notes in measures 7 and 14. The piece concludes with a repeat sign.

Musical notation for measures 1-4. The piece is in a key with two flats (B-flat and E-flat) and a 3/4 time signature. Measure 1 starts with a repeat sign. The right hand plays a sequence of eighth and quarter notes, while the left hand provides a simple bass line.

Musical notation for measures 5-8. The right hand continues with eighth and quarter notes, ending with a trill on the final note. The left hand maintains its bass line.

Musical notation for measures 9-12. Measure 9 is marked with the number 25. The right hand features a series of eighth notes, and the left hand continues with a steady bass line.

Musical notation for measures 13-16. Measure 13 is marked with the number 30. Measure 15 includes a trill (tr) on the final note. The right hand has eighth and quarter notes, and the left hand has a bass line.

Musical notation for measures 17-20. Measure 17 is marked with the number 35. The right hand has a more active eighth-note pattern, and the left hand continues with a bass line.

Musical notation for measures 21-24. Measure 21 is marked with the number 40. The right hand has eighth notes, and the left hand has a bass line.

Musical notation for measures 25-28. The right hand continues with eighth notes, and the left hand has a bass line.

Musical notation for measures 29-32. Measure 29 is marked with the number 45. Measure 31 includes a trill (tr) on the final note. The right hand has eighth notes, and the left hand has a bass line.

Double

The first system of music consists of two staves. The upper staff is in treble clef and the lower staff is in bass clef. The key signature has two flats (B-flat and E-flat), and the time signature is 6/8. The music begins with a series of eighth notes in the right hand, while the left hand has a few notes and rests.

The second system continues the piece. A measure number '5' is placed above the first measure of the upper staff. The right hand features a more active melodic line with eighth notes, while the left hand provides a steady accompaniment.

The third system shows the continuation of the musical themes. The right hand has a series of eighth-note patterns, and the left hand has a few notes and rests.

The fourth system begins with a measure number '10' above the first measure of the upper staff. The right hand continues with eighth-note patterns, and the left hand has a few notes and rests.

The fifth system begins with a measure number '15' above the first measure of the upper staff. The right hand continues with eighth-note patterns, and the left hand has a few notes and rests.

The sixth system begins with a measure number '20' above the first measure of the upper staff. The right hand continues with eighth-note patterns, and the left hand has a few notes and rests.

The seventh system continues the piece. The right hand features a more active melodic line with eighth notes, while the left hand provides a steady accompaniment.

The eighth system continues the piece. The right hand features a more active melodic line with eighth notes, while the left hand provides a steady accompaniment.

25

Musical notation for measures 25-27. The piece is in a key with two flats (B-flat and E-flat) and a 3/4 time signature. The right hand features a continuous eighth-note melody, while the left hand provides a simple accompaniment of quarter notes.

30

Musical notation for measures 30-32. The right hand continues with eighth-note patterns, and the left hand has some rests in measure 30 before rejoining with quarter notes.

Musical notation for measures 33-35. The right hand has a more active eighth-note line, and the left hand features a steady quarter-note accompaniment.

35

Musical notation for measures 36-38. The right hand has a melodic line with some grace notes, and the left hand continues with quarter notes.

Musical notation for measures 39-41. The right hand has a melodic line with a slight upward curve, and the left hand has a simple quarter-note accompaniment.

40

Musical notation for measures 42-44. The right hand has a melodic line with some grace notes, and the left hand has a simple quarter-note accompaniment.

45

Musical notation for measures 46-48. The right hand has a melodic line with some grace notes, and the left hand has a simple quarter-note accompaniment.

Musical notation for measures 49-51. The right hand has a melodic line with some grace notes, and the left hand has a simple quarter-note accompaniment. The piece concludes with a final cadence.

PRELUDIO *IN DO MINORE (BWV 999)*

Praelude

The musical score for 'Praelude' in D minor, BWV 999, by Johann Sebastian Bach, is presented in six systems. Each system consists of two staves: a treble clef staff for the right hand and a bass clef staff for the left hand. The key signature is two flats (B-flat and E-flat), and the time signature is 3/4. The right hand part is characterized by a continuous eighth-note pattern, while the left hand part provides a simple harmonic accompaniment. Measure numbers 5, 10, and 15 are indicated at the start of their respective systems.
